Create an Egyptian Tattoo

The first documented tattoos were found on the bodies of mummified Ancient Egyptians. Originally, it was thought that tattooing was done only to females, however, more recently scientists have discovered that this wasn't necessarily the case. Tattoos have since become very popular in our culture today. In order to connect our modern world to Ancient Egypt, we will be holding a contest between all 7th grade classes as to who can create the coolest tattoo. Tattoos will be voted on by all 7th graders. Mr. Flay, Mrs. Brown, Mrs. Heishman, and Mr. Matarazzo will all display the winning tattoo on our forearms for all to see. The criteria for the tattoo is as follows:

1. Must be done in pencil on white paper.
2. Must be related to Egypt. Geography, Pharaohs, Pyramids, Accomplishments, etc. are all appropriate design inspirations.

You may use class time if you have completed all other activities in Phase 1.
