~~OCA Training Track LLN 2017~~

~~Table of contents~~

Finish 10.0 module migration PRs	2
Migrate OCA modules to v11	2
Runbot + Travis through Docker	5
OpenUpgrade v11 migration scripts	6
Weblate platform	6
OCA Administration tooling & Organization	6
OCA Distribution	6
OCA v10 migration validation	6
Create a module browser for OCA instance in v10	7
Py3o reporting engine	7
Monitoring your Odoo stack using Prometheus	7
MIS Builder	7

Finish 10.0 module migration PRs

Pre-requisites:

- ~~Label all the PRs that correspond to this category.~~

Goals:

- ~~Merge them before 11.0 branch creation for having a clean commit history when migrating to v11.~~

Responsible(s):

- ~~Pedro M. Baeza~~

Migrate OCA modules to v11

Pre-requisites:

- ~~Previous topic.~~
- ~~Ask Odoo to generate 11.0 Odoo branch before the code sprint (if possible).~~

Goals:

- ~~Have OCA modules on v11 day 0.~~

Responsible(s):

- ~~Pedro M. Baeza~~

List of candidate modules:

- ~~OCA/account-analytic~~
 - ~~account_analytic_parent~~
 - ~~account_analytic_required~~
 - ~~product_analytic~~
- ~~OCA/account-financial-tools~~
 - ~~account_chart_update~~
 - ~~account_credit_control~~
 - ~~account_fiscal_year~~
 - ~~account_renumber~~
 - ~~account_reversal~~
 - ~~currency_rate_update~~
- ~~OCA/account-financial-reporting~~
 - ~~account_financial_report_qweb~~
 - ~~account_journal_report~~
 - ~~account_tax_balance~~
 - ~~mis_builder~~
- ~~OCA/account-invoicing~~
 - ~~account_invoice_merge~~
 - ~~account_invoice_pricelist~~
 - ~~account_invoice_refund_link~~

- ~~OCA/web~~
 - ~~web_decimal_numpad_dot~~

- web_dialog_size
- web_environment_ribbon
- web_export_current_view
- web_favicon
- web_m2x_options (attention: some features are available in standard Odoo now)
- web_no_bubble
- web_responsive
- web_searchbar_full_width
- web_sheet_full_width
- web_translate_dialog
- web_widget_color
- OCA/website
 - website_cookie_notice
 - website_crm_privacy_policy
 - website_crm_quick_answer
 - website_legal_page
 - website_logo
 - website_odoo_debranding
 - website_seo_redirection
 - website_snippet_anchor

Additional info:

- List of most downloaded OCA apps (in App Store), which is not the best indicator
<https://www.odoo.com/apps/modules/browse?order=Downloads&author=Odoo+Community+Association+%28OCA%29>
- We should provide a list of candidate modules for those that just want to pick one.

Runbot + Travis through Docker

Pre-requisites:

- Choose a common Docker base and bring it to OCA. A good one used by LasLabs, Tecnativa and Eficent is <https://github.com/Tecnativa/docker-odoo-base>

Goals:

- Avoid problems with the installation of dependencies and non uniformity between Travis and Runbot. Current travis2docker is a start, but we are still relying on Travis SO for running tests and travis2docker image is heavy.

Responsible(s):

- Jairo Llopis?
- Moisés López?
- Dave Lasley?

Participants:

- Jairo Llopis
- Moisés López
- Dave Lasley

OpenUpgrade v11 migration scripts

Pre-requisites:

- Generate migration analysis files.
- Prepare branch and merge OpenUpgrade specific changes.

Goals:

- Being able to migrate from v10 ASAP.

Responsible(s):

- Holger Brunn
- Stefan Rijnhart

Weblate platform

Goals:

- Help finalize the installation of the weblate platform.

Responsible(s):

- Jesús Zapata?
- Moisés López?

OCA Administration tooling & Organization

Goals:

- Help to move to a more “manage maintainer” instead of “manage repo” following proposal from Graeme:
https://drive.google.com/open?id=0B_Uw3a1pteqwb1ppbFhwbmZsdFZtT3JiSnFCaHhleK9LU3pJ
- Module lifecycle thoughts:
<https://docs.google.com/document/d/1wwnu7oe5cDTyJZH3hdKkGLnF6fH4jPP3RLMPAhm3gjs/edit>
- Githubbot: <https://github.com/OCA/maintainer-tools/issues/203>

Responsible:

- Joël Grand-Guillaume

OCA Distribution

Goals:

- Bootstrap an OCA branded distribution of Odoo.

Responsible:

- Daniel Reis

OCA v10 migration validation

Goals:

- Validate the migrated instance

Responsible:

- ~~Joël Grand Guillaume~~

~~Create a module browser for OCA instance in v10~~

Goals:

- ~~emulate the apps.odoo.com~~

Responsible:

- ~~Eric Caudal~~

~~Py3o reporting engine~~

Goals:

- ~~fix bugs, work on barcodes, improve templating~~

Responsible:

- ~~Alexis de Lattre~~
- ~~Florent Aide~~

~~Monitoring your Odoo stack using Prometheus~~

Goals:

- ~~Build a Docker image containing the essential tools to monitor an Odoo instance using Prometheus (<https://prometheus.io>)~~

Responsible:

- ~~Jairo Llopis~~
- ~~Dave Lasley~~
- ~~Hector Villarreal~~

~~MIS Builder~~

Goals:

- ~~Migrate MIS Builder and it's dependencies to v11~~
- ~~Work on [new features](#):~~

Responsible

- ~~Stéphane Bidoul~~
