National symbol will be changed from eagle to fiddler crab. I could watch them all day. They come out of their sand homes at the same time in unison, reminding me of Americans leaving home to go to work. Then in unison the males all lift their big claw and this reminds me of two things: man's praise of His Lord and man's right to free speech, housing and living off of the land without restrictions. Fiddler crabs remind me of God's creation of the need for a free society with free speech,

housing, hunting & gathering for survival.
