## Mural Commission Information Sheet

Thank you for your interest in commissioning a mural! As an independent artist and designer, I appreciate your effort in supporting artists like myself. Here's a little more information about my process, pricing, and how to submit an inquiry.

---

### How Does it Work?

Each project is unique and so I've developed a process for commissioning a mural. Sometimes we deviate from this process when the project calls for it, but here's what you can generally expect:

- You complete the inquiry form below to tell me the basic information about your project
- I'll email you within 2-3 days via email to ask any additional questions and request photos of the space
- From there we'll decide on a concept and rough pricing
- If you would like, I can create a photorealistic mock-up of the mural (\$250)— this can be helpful if you have multiple stakeholders weighing in on the design.
- If you're looking for a fully customized mural, we can work collaboratively to develop concepts and direction (\$1500).
- We'll make adjustments as needed, sign a contract, and get going on our project together!

### Pricing + Timing

It's always a little tricky providing pricing without details because each project varies but a very rough calculation you can use is \$60-150/square foot depending on complexity. Additionally, I offer a discounted rate for non-profit organizations and small businesses. To get a ballpark timing, you can estimate covering roughly 7-10 square feet per hour, again depending on the surface and complexity.

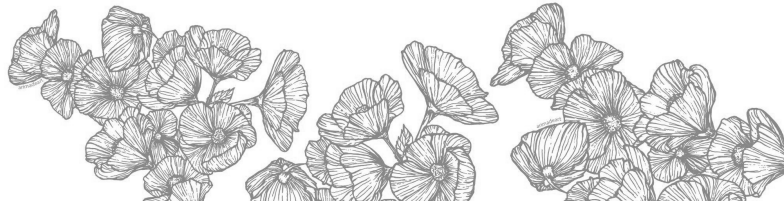

#### example

5'x10' area is 50 square feet  
the cost would be between \$2000-\$5000  
it would take some 5-7 hours to complete
