

1. Proxy Server – Privacy Policy

- 1. *Proxy Server **does not** collect any private information.*
- 2. *Proxy Server forwards traffic directly to local service and **does not** use a remote proxy servers or any outgoing connections.*
- 3. *Core functionality is to create local proxy service to show for endpoint users network domains requested by their devices.*
- 4. *Block outgoing traffic, to hosts which user decided to block.*
- 5. *Proxy Server **does not** require unnecessary permissions. It is simple and safe.*
