3. Methodology

It contains the research design, population, sample, data collection and analysis techniques, in Times New Roman 12. There is no need to present research methods for conceptual articles/literature studies, only Literature Reviews, results and discussion immediately after the introduction.

4. Results And Discussion

The result of the article contains the data analysis written descriptively using Times New Roman 12. Tables and figures in each article is three (3) at most, B&W, not colorful. Discussion presents each of the findings compared to relevant theories or previous studies, actual facts, comments, and reasonable analysis from researchers.
The utilization of sub-chapter in discussion corresponds to the needs of discussion.

For instance:
Sub Chapter 1 (Times New Roman 12, bold)
Sub Sub Chapter 1
Sub Sub Chapter 2
Sub Chapter 2 (Times New Roman 12, bold)
Sub Sub Chapter 1
Sub Sub Chapter 2
Sub Chapter 3 (Times New Roman 12, bold)
Sub Sub Chapter 1
Sub Sub Chapter 2

Tables and figures should be incorporated in the text as close to the reference as possible and should be in a form suitable for publication when printed with a good quality laser printer. Figures will be printed in black and white and should be readily interpreted without the use of color. Tables and figures may extend across both columns. Captions should be Times New Roman 11-point, centered. Tables and pictures should be sequentially numbered in separate series. Captions for tables should be above the table. Captions for figures should be below the figure. Tables contains primary source should not be captioned.

Mathematical Formula

Mathematical formulas should be numbered and clearly presented using Microsoft Equation:

$$f(x) = a_0 + \sum_{n=1}^{\infty}\left(a_n + b_n \sin sin \frac{n\pi x}{L}\right) \qquad (1)$$

5. Conclusion

It contains a conclusion and suggestion. The conclusion briefly illustrates the results that address the hypotheses and research purposes or findings. The summary of the research and discussion relevant to the findings, presented descriptively, not numeric. Suggestion provides things expected to conduct related to further ideas the research has proposed.

Author contribution statement

CRediT (Contributor Roles Taxonomy) was introduced with the intention of recognizing individual author contributions, reducing authorship disputes and facilitating collaboration.

Acknowledgements

These people who need to be mentioned in the Acknowledgments section are those who have assisted in the research process and the preparation of the article. Most academic papers have people who have helped in some way in the preparation of the written version or the research itself. It can be from sponsoring institutions, donor agencies, other researchers, or even family, friends or colleagues who have helped in the preparation.

References

Every text source should be listed in reference, and the references are included in the body of the text. All sources appearing in the reference list must be ordered alphabetically by surname. It should contain reference literature from primary resources (e.g., the scientific journal with DOI), and at least 80% of them are published in the last 10 (ten) years. Each of the articles should have at least 20 references. It is suggested to use a reference manager (e.g., Mendeley, Zotero, RefWorks, Endnote, etc.) to write the text and citation. The format of writing the references uses APA 7th edition (American Psychological Association). All citations must be hyperlinked with references.
