OF UKRAINIAN MEDICAL LYCEUM AT
O.O. BOHOMOLETS NATIONAL MEDICAL
UNIVERSITY!

By browsing through the electronic pages of digital portal, you will learn about the history, present, and future plans of the first university medical lyceum in Ukraine.

We always remember our roots, Alma Mater, the founders, and all those ones, who selflessly worked and studied.

The strategic catalyst for unique scientific direction in the field of pedagogy - the pre-professional training for medical specialties within the technological model of lyceum-university - was the outstanding scientist and advocate of medical education, Academician of the USSR's Academy of Medical Sciences, the National Academy of Sciences, the National Academy of Medical Sciences, and the National Academy of Pedagogical Sciences of Ukraine, Rector of O.O. Bohomolets National Medical University (1984-2003) – HONCHARUK Yevhen Hnatovych (1930-2004).

The hallmark of the Lyceum is the high achievements of its students throughout their life continuum, the unique educational environment, infused with the values of respect for individuality of student, the professional and corporate ethics of talented educators, and most importantly—the academic traditions of O.O. Bohomolets National Medical University, laid down by outstanding scientists and doctors over nearly two hundred years.

Dynasties, the continuity of generations, intertwining the arts of education and medicine, constant attention and support from the founders, alumni, and foreign partners, allow us to move forward with the times as one big friendly family that lives the interesting and creative life.

Currently, Ukraine is undergoing a full-scale deadly aggression, initiated by Russia - a country of evil that seeks to destroy us, to steal our future and freedom, and employs the barbaric methods of warfare, cruel torture, atrocities, looting, and intimidation of innocent civilians.

Everyone, responsible for these inhumane and monstrous crimes, must be found and punished.

The Lyceum community, together with the entire country, is strongly consolidated and focused on fighting the enemy, selflessly working in all directions.

A low bow and immense gratitude to the unyielding defenders of Ukraine - the Soldiers of Light, who courageously defend the sovereignty and territorial integrity of the state, democracy, and freedom.

We believe in the heroic Armed Forces of Ukraine and will do everything possible for Victory!
Ukraine will certainly prevail and will always be free.

Glory to Ukraine!
Glory to the Heroes!

With sincere respect to you and faith in Ukraine's Victory.
Yaroslav TSEKHMISTER
