

Fall 2026

CS5368 Intelligent Systems

Project 0 Report

Name:

Student ID:

Please answer the following questions and submit them through Canvas. Be sure to submit them to the “*Project 0 report submission*.” DO NOT write the report by hand and submit a scanned version. Just write the answers in a Word document and submit it. Both Word and PDF submissions are accepted.

1. What did Problem 1 ask for? How did you implement it?
2. What did Problem 2 ask for? How did you implement it?
3. What did Problem 3 ask for? How did you implement it?
4. What happens when you run the following code?

```
python autograder.py -q q3
```

```
python autograder.py -t test_cases/q3/select_shop1
```

Keep these configurations in mind. You will need them a lot throughout the course projects.
