

Privacy Policy – Faith Bible App

Effective Date: 13 September 2025

App Name: Faith Bible App

Developer / Organization: Public Network Solution

Contact Email: faithbibleapp@gmail.com

1) Introduction

Faith Bible App is a bilingual (English + Hindi) Bible reading app with features like Bible reading, plans, notes, bookmarks, highlights, audio Bible (TTS), quizzes, optional sign-in/community, and ads. We respect your privacy and are committed to protecting your data.

2) What We Collect

2.1 On-device (local) data

Your notes, bookmarks, highlights, and reading plans are stored locally on your device (e.g., SharedPreferences/Hive). We do not upload this content to our own servers.

2.2 Optional sign-in / community (if you use it)

If you choose to sign in via Google or Facebook, we may receive your name and email from the provider to create/manage your profile. If a community/chat/feed feature is enabled, your profile/posts may be stored in Firebase (Auth/Firestore).

2.3 Permissions / device access (only with your consent)

Location (Approx/Precise, “While in use”): to power features like Nearby Church. We do not request background location.

Microphone/Audio (RECORD_AUDIO): for voice input/speech-to-text. No background or call recording.

Media/Storage (READ_MEDIA_* on newer Android; limited READ/WRITE on older versions): to let you choose images/videos for sharing or wallpapers. We don't upload your media to our servers.

Advertising ID (AAID): may be used by Google AdMob for ads and measurement.

2.4 Third-party services that may process data

Google Play Services, Google Play Billing (IAP)

Google Mobile Ads (AdMob)

Google Sign-In / Facebook Login (if you sign in)

Firebase Auth / Firestore (if sign-in/community is used)

3) How We Use Data

To provide core features (reading, plans, notes, bookmarks, highlights).

To show ads and measure/improve them (AdMob).

To process in-app purchases via Google Play Billing.

To run optional sign-in/community features (if enabled).

To diagnose issues and improve reliability (limited technical logs).

4) Logs / Diagnostics

In case of errors/crashes, limited technical details (device model, OS, timestamps) may be logged by the OS/Google services solely to improve stability. We don't run background recording or background location.

5) Advertising & Tracking

The app shows Google AdMob ads. AdMob may use the Advertising ID and approximate location to deliver family-safe, contextual/personalized ads (subject to your device/consent settings). You can reset/limit ad personalization in your device settings.

6) Children's Privacy

The app is appropriate for a general audience. For users under 13, we recommend parental guidance. We do not knowingly collect personal information from children. If you believe a child has provided personal data, contact us to remove it.

7) Billing & Receipts

All purchases (e.g., quiz unlocks, ads-free plans) are handled by Google Play Billing. We do not store your card/UPI details. Google/your Play account controls the purchase receipts.

8) Sharing, Sale, and Transfers

We do not sell your personal data. Data may be processed by the services above to operate the app. Such providers may process/store data outside your country with appropriate safeguards.

9) Security

Data is protected in transit (e.g., HTTPS). Your notes/bookmarks/highlights/plans remain on your device unless you share/backup them yourself.

10) Your Choices

Permissions: You can revoke Location/Audio/Storage permissions anytime in system settings (some features may be limited).

Ads preferences: Reset/limit Advertising ID in device settings.

Access/Correction/Deletion requests: Email us (see below).

11) Account Deletion (if you signed in)

If sign-in/community is enabled, we provide (or will provide) an in-app “Delete my account” option. Or email faithbibleapp@gmail.com

with subject “Delete my Faith Bible App account” (from your sign-in email). We generally complete deletion within 30 days (some purchase/log data may be retained for legal/accounting compliance).

12) Retention

On-device content: until you uninstall/clear app data.

Diagnostics: limited period (typically up to ~90 days).

Account data (if signed in): retained while your account is active; deleted per Section 11 upon request.

13) WebView / Cookies

We don’t use cookies ourselves; however, WebView-based content (e.g., embedded pages) may use cookies/local storage controlled by that site. You can clear app data/cache to remove them.

14) Changes

We may update this policy. The latest version and effective date will always be shown here.

15) Contact

Questions or requests?

 faithbibleapp@gmail.com

Permissions summary: RECORD_AUDIO (voice input), ACCESS_FINE/COARSE_LOCATION (Nearby Church; while-in-use only), READ_MEDIA_* / legacy storage (user-selected files only), POST_NOTIFICATIONS (Android 13+).
