

IV. HIDE, IGLOO, POUCH & SNUGGLE!:

Here I have listed different hideouts, igloos and pouches that I use with my babies and prickles. Every hedgehog is different and some prefer to sleep in pouches/sacks placed inside an igloo, some want a more open area to crawl into and some will ransack their cage every night. Whatever the reason, I'm sure one or more of the links below will have something right for you. I have attached the direct sites for hides, igloos and of course pouches from Pistachio's Place, where I have acquired quality handmade, safe and comfortable snuggle sacks.

Pistachio's Place <https://www.facebook.com/groups/pistachiosplace> Your baby will be coming home with a pouch from Pistachio's Place! We have been using, and losing, these pouches for years now as our babies won't leave our home without them.
