

Personal Injury Law

If you've hurt in a wreck in Texas and are looking to hire a San Antonio accident lawyer, you might be asking yourself, what is personal injury law? The general phrase encompasses a great deal, but can be summarized as the following.

Personal injury law is an area of the law that falls under the category of tort law. Tort law (which is named after the Latin word "tortus," or "twisted") is part of the civil justice system that covers losses, wrongs, or damages that are caused by the conduct, act or omission of one party to another party's body, property, rights, or reputation.

The three major categories of torts are intentional torts, negligent torts, and strict liability torts. Within these categories, there are dozens of specific torts, including battery, assault, malpractice, defamation, trespass, and intentional infliction of emotional distress (just to name a few). Tort law differs from criminal law in many ways; namely, tort lawsuits have a much lower burden of proof and can be brought against someone who was acting negligently. Personal injury attorneys serving San Antonio are specialized lawyers who understand the ins and outs of the complex world of tort law, focused within the state of Texas. The experienced attorneys at Carabin Shaw have the specialized knowledge and expertise to represent clients experiencing personal injury.

You may be asking, what exactly qualifies as a personal injury? Well, the term "personal injury" legally refers to an injury of the body, mind, or emotional state of a person. Personal injuries are separate from injuries to property and can occur in

various settings and circumstances, including:

At the workplace

In a car wreck

By a medical mistake

By a faulty or defective product

By an operating error

By a faulty repair

As the result of a slip and fall

In a construction accident

In a plane or train accident

As the result of an animal attack

If you were injured in central Texas or the surrounding areas, a Carabin Shaw personal injury lawyer in San Antonio can protect and potentially compensate you for monetary, physical or psychological damages suffered as the result of a personal injury. However, the law only covers damages that resulted from the negligence or intentionally harmful actions of someone who owes a duty of care (e.g. an employer, doctor, or manufacturer). To see what compensation you may be eligible, call Carabin Shaw as soon as possible – we will work to ensure just reparations. Your initial consultation is free.

In addition to the torts and situations mentioned above, personal injury law also covers wrongful birth, wrongful death, bodily injuries, loss of enjoyment of life, libel, slander, and nuisance. If you're not sure whether or not your injury falls under the category of personal injury law, our lawyers can help you figure out how to proceed during your free consultation.

Some personal injury cases are eventually formalized and brought to civil court, but others are resolved through settlements. Others still occupy a middle ground and are resolved through either mediation or arbitration. Our experienced San Antonio accident lawyers are prepared to handle your case, whether it ends up in civil court or is settled through more informal negotiations outside of a courtroom.

If you have suffered a personal injury loss, please contact us any time of the day or night. Carabin Shaw has represented thousands of individuals under Texas personal injury laws, and we can help you figure out how to proceed with your case. Call us toll free at 800-862-1260.

Company Description

About Us, Personal Injury Lawyers Advocating for Your Rights. Carabin Shaw was founded over 30 years ago to fight for the rights of law victims of auto accidents, trucking accidents, 18- wheeler accidents, motorcycle accidents, worksite accidents, and other losses. Our Offices are here in San Antonio and across Texas. With over 200 years of combined experience in personal injury law and a commitment to a higher level of service, our attorneys have won thousands of personal injury and wrongful death cases. We are dedicated exclusively to advocating for the rights of individuals injured or wrongfully killed in accidents. We stand up for victims against insurance companies and responsible parties.
