JAD/Monstrous Desires Jam Entry

(Carved in Stone )

About Me:

Hiya! My name is Joy! Founder, Creative Director, and Lead Writer for **Meant to Bee Studios**. I focus on purely romance games with a variety of different genres and types of relationships and characters.

I have currently 5 games under my belt: Tattoos and Tulips, Crabs & Cocktails, Cassie, Lord of Lies, Carnival of Shadows, and Rectifier: In Bloom, with this project, and one more planned before the end of the year. In other words, I know a thing or two about leading teams and finishing what I start.

The Project

This is a non-commercial jam game, all positions are **unpaid**. Also as the project is **NSFW** please do not offer to help if you are not **18+** please. The only content warnings are explicit sexual content at present. Maybe some darker themes depending on how the writing goes.

I recently came upon a little time to squeeze in a small project between now and Halloween in time for Josei After Dark, Monstrous Desires Jam, and maybe Spooktober? respectfully. (Monstrous Desires ends the **28th of October**, so that's our deadline.) So we will have a month to finish this project.

Thankfully, it is much smaller scope compared to my previous projects. 1 sprite with variations, 3-4 CG's, 3 tracks for the OST, 3-4 Backgrounds, 10k-20k words ideally etc...

Creative Director, Writer, Casting Director: [Joy](#) (myself)

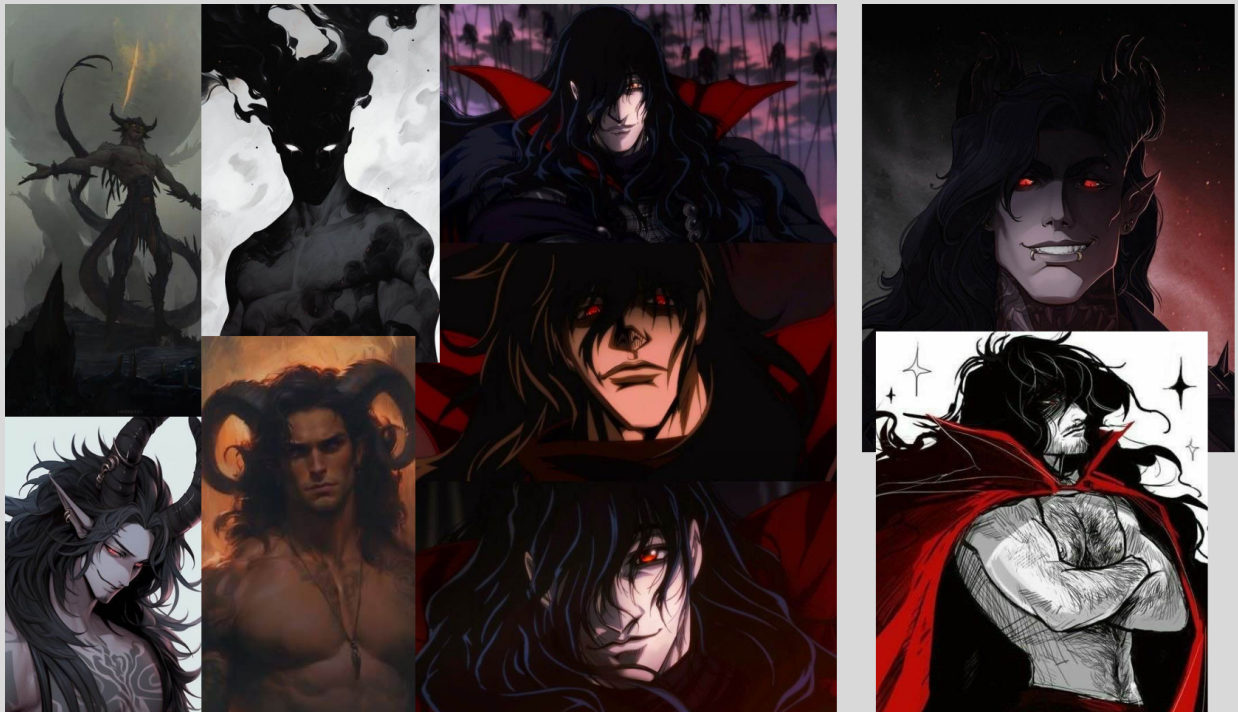

Background Artist: [Applesplosion](#)

Roles Needed:

● ~~Sprite Artist~~

1 sprite with 2 variations- a human version of the love interest, and a demonic/gargoyle esque version. Multiple expressions, clothed, naked variants.

Below are the main inspirations behind his design- long wavy hair, buff, hairy/tattooed/scarred, red eyes, sharp features, devilish, unsettling but also very appealing.

● ~~CG Artist~~

3-4 CG's at least half of which are NSFW and one cute ending scene, along with a title image.

Since we are aiming for an invis MC I want to try having a silhouetted out fem body, with our love interest on full display.

● ~~GUI Artist~~

Make screens and textbox for the game, the theme will be sexy/dark. So reds, black, most likely.

Screens:

- Save/load
- Backlog
- Preferences
- Gallery
- (in-game/pause) Menu
- Text box
- Choice box
- Quit/confirmation frame

● ~~Logo Artist~~

Make a logo for the game once we have a title. One to match the title CG and the GUI.

● ~~Audio Engineer~~

Cut, clean, and balance voice lines.

● ~~Composer/SFX~~

3 music tracks: theme for the menu, neutral/talking theme, sexy theme for spicy scenes.

May need to source some regular sfx and potentially sexy sounds 🍆

● ~~Ren'py Programmer~~

(One that can put in GUI please)

● ~~QA/Editor~~

Willing to edit the script and/or playtest the build for potential bugs.

● ~~Voice Actor~~

1 Masculine Sounding VA, at least for the SFW scenes, though I won't turn down NSFW audio as well if you'd be willing.

Synopsis

Our MC (renameable) is a 35-45 year old woman who runs her own shop in a fantasy medieval style village often working very late into the night. She starts to feel as if her life is passing her by, even though she's following her dreams she's fallen into a bit of a depression. Other people half her age are already getting married, already having kids, and here she is working and living alone. Though she enjoys it, she feels like she's falling behind and begins questioning herself and her work.

In comes the love interest, Piers/Carrick (name to be voted on). A frequent late night customer who the MC can't seem to take her eyes off. Little does she know, Piers/Carrick is a Gargoyle/energy demon who has been drawn to the MC from the moment he met her due to her confidence and beauty. He's taken notice that she has begun to lose a lot of her spark lately and aims to help her in anyway he can.

She confides in Piers/Carrick while closing shop as they speak, finding herself seeking physical comfort and coming onto him. Piers/Carrick is more than happy to oblige. Letting her use him to her heart's content.

Important note: this project is for the female gaze and is by no means trying to say that the MC needs a man and/or sex with a man to make her happy. Rather it just gives her a kick in her step, and a needed reminder/reassurance of her self worth.

There's a choice at the game for the MC to pursue a romantic relationship with him after the story ends or to be friends with benefits essentially. Other choices for player agency will be a central focus.

This entry is intended to be a spicy, spooky, and ultimately wholesome.

Thank you for reading, I hope this spicy little story catches your attention. I look forward to hearing from you, and potentially working with you~!
