

Attendance Recovery at TJMS

We're excited to launch Attendance Recovery (AR) at Toby Johnson Middle School. This new program provides students with structured opportunities to recover missed instructional time and engage in standards-aligned learning outside of the regular school day.

Developed under Education Code sections 46210–46211, AR is designed to support student engagement, academic growth, and overall attendance outcomes. While participation in AR does not remove absences from attendance records, it allows students to work directly with credentialed teachers, explore enrichment opportunities, and strengthen their understanding of grade-level content.

Attendance Recovery sessions will be offered before and after school, and all students are eligible to participate for up to 40 hours per school year. By joining, students not only enhance their learning but also contribute to district-wide attendance efforts that help fund programs and staff.

Sign-ups are open now and will be first come, first served, as class sizes are limited to 20 students per session. To sign up, scan the QR code below.
