

SUMMER PLANNER

Summer Planner - We used this document to plan our summer activities, with the goal of being the first program to have their summer activities planned. Every aspect of our summer basketball activities, from our youth camp to all of the scrimmages/shootouts/camps/tournaments our junior high to high school teams have been organized from A to Z. Coaches who purchase this document/rubric can edit it so it meets their program's needs.

FEEDBACK FROM COACHES REGARDING OUR COACHING AIDS:

These coaching resources are absolutely phenomenal for organizing any basketball program! As coaches we want to spend our time with the gameplans, schemes, and practices. However these detailed plans help us keep everything together. The Pre and Post season checklists especially, are tremendous resources to keep all of the extra "things" organized. I will absolutely use these in our program!

-Coach Lance Fritz, Westfield Area High School (WI); Head Boys' Basketball Coach & PE Teacher

"The information & documents included in this packet are incredibly detailed & a tremendous asset in terms of program planning & organization."

- Coach Mike McBride, Holy Cross College (IN); Head Men's Basketball Coach

I was fortunate to be hired by Coach Sheridan as his varsity assistant coach. Upon being hired, I was excited to learn about how his teams' had controlled the tempo of their games over the years using their Mover/Blocker offense & zone defense. However, learning his system of organizing and planning every aspect of our program was equally, if not more, impressive. It didn't take long to learn he had a system for organizing, planning, delegating, & administering every aspect of our basketball program. The coaching materials he created not only saved us time, but kept us all on the same page. After coach became ill, he handed our program over to me. We still use all of his coaching aids (we called them cheat sheets), in fact, I can't imagine not using them. Recently, we completed our "Summer Organizer" packet, using it ensured that each aspect of our summer is organized & ready to go! My staff & I will **NEVER** plan a summer without it! Trust me, these materials will help you stay organized and save you time in the longrun.

-Coach Matt Brighton, Delta High School; Math Teacher & Head Boys' Basketball Coach

I coached against Derek for nine years and can vouch for the organization and preparation of his teams each and every game. If these are the devices that he utilized to organize and prepare his teams, then I cannot imagine that they will not help you and your program.

-Coach Dave Boyce, Perrysburg HS (OH); Head Boys' Basketball Coach & Assistant Principal

Derek is a lifelong basketball junkie. He has spent his entire career trying to find ways to work smarter, and be more prepared than the competition. His organizational tools are tremendous. As a Head Coach for 33 years, I only wish I had found these years ago. If you are looking for a way to organize your entire program I highly recommend you take a look at them. There is something here for everyone.

-Coach Jim Rucki, Findlay HS (OH); Social Studies Teacher & Head Boys' Basketball Coach

These materials are very meticulous and thorough! A great resource for coaches who want to inject organization into their programs. These resources cover everything from the ground up. Good stuff.

-Coach PJ Metz, North Decatur HS (IN); Social Studies Teacher & Head Varsity Boys' Coach

Highly recommended. You will not be disappointed, as these organizational tools are exceptional. A must have for busy coaches. I coach three (3) sports & have molded these docs to fit each sport I coach.

My life is easier due to staying on top of things through being organized.

-Coach Troy Opperman, Perrysburg HS (OH); Math Teacher & JV Boys' Basketball Coach
