

Terms of Service

Updated 5/23/2025

A very important note before reading this is that I struggle mentally which can lead to changes in my artstyle or drops in motivation. I will do my best to give you a product you are happy with, but I ask that you please be patient with me. Art is my hobby, not my job.

Communication

I require private and instant communication. Feel free to ask questions for whatever you may be curious about. "Ghosting" me will result in a block. I can only speak English and feel uncomfortable communicating through a translator.

Usage and Copyright

[All of my work is protected under copyright law.](#)

Clients automatically agree to follow this law and my terms of service by commissioning me.

Every commission I create may or may not be posted publicly by my choice and requests to keep them private will be denied. I do not credit commissioners in my posts for sake of privacy (and those asking for commissioner information will be declined), but if clients wish to be credited, they must ask. If a client is commissioning me for someone else, I need their name or username, social(s), and their explicit consent. I will not do commissions for anonymous clients without their consent.

Clients reserve the right to use their commission(s) however they wish, the exception being for profit/commercial use. I will never offer commercial licenses.

I also have my own personal terms clients must follow if they wish to continue doing business with me. These terms are as follows:

- Do not print out my artwork (ask for consent)
- Do not edit my artwork (ask for consent)
- Do not get my artwork tattooed (no exception)

Artwork that is not commissioned by or for a client is not for public usage in any way, shape or form. Illegal usage of my work can lead to possible legal action. If one would like to use any of my personal or fan art in any way, shape, or form (within my terms), they will require my consent. I require that credit to me is given whenever credit is due.

Clients shall not reproduce and/or otherwise use my work in any manner for purposes of training artificial intelligence technologies to generate work, including without limitation, technologies that are capable of generating works in the same style or genre as my work. Nor shall clients sublicense others to reproduce and/or otherwise use my work in any manner for purposes of training artificial intelligence technologies to generate work.

Payment

I only take full up-front payments of USD through PayPal Goods and Services (by email or invoice) or Ko-fi donations. Payment must be sent and received before I work.

Refunds will not be given beyond the sketch stage unless I cancel at any time regardless if the piece is near finished (you will be given the incomplete piece as compensation). If you ask for a refund after approving the sketch, you will be denied. If you treat me inappropriately the commission will be canceled without refund and you will be blocked.

Updates

I will send a work in progress screenshot for every stage I complete (in order: sketch, lines, color, and shading; stages may vary depending on commission type). These are not to be shared publicly without consent. Refrain from asking for an update every day; I work at a leisurely pace because art is my hobby, not my job. I may still work on personal projects while I have a commission queued. Due to my mental health, I can only work on one commission at a time. My turnaround time can vary from 1 day to 2 months. If you aren't comfortable with this, don't commission me.

Edits

Major edits can only be made in the base sketch stage. From lineart onward only minor fixes will be done. A total of 3 major edits and 5 minor edits can be made before I begin to charge extra per edit (5 USD).

Miscellaneous (Important) Notes

- I reserve the right to deny any commission for any reason before payment
- Keep our interactions to the point and straight forward; I want to stay focused; socializing and unnecessary interactions are extremely distracting and can be taxing for me as I have a small social battery. If you don't know exactly what you want, please figure it out beforehand so it saves us both the time and effort
- I'm not comfortable discussing ideas for commissions unless necessary, the exception being if you are uncertain of whether or not I can draw what you're wanting
- I can work with prompts/inspirations that aren't specific
- If you're wanting a specific prompt/inspiration/pose, please provide visual references
- If I'm drawing your original character, I require a proper digital reference sheet
- If I'm drawing a franchise character, I require their name, franchise name, and clear visual references (unless it's a character I've drawn many times before)
- Characters that include extra limbs, intricate markings/tattoos, and/or intricate clothing, accessories, or items will cost a difficulty fee
- Extra characters are priced individually (up to 3 per single drawing) and can cost a difficulty fee if applicable (characters that are small cost less)
- All pieces automatically include simple backgrounds (unless requested otherwise)
- Alternative version files of the commissions can be given upon request if applicable

—Continued—

- Commissioners requesting nude or sexual themes must be 18+, no exceptions

- All characters involved in nude or sexual themes must be above their species' age of consent, have the intelligence of or more than an adult human, and be able to explicitly consent (verbal or written) regardless of race/species
- Watermarked and unwatermarked files of commissions are automatically included
- Unwatermarked files are for personal use only, post watermarked files to public spaces otherwise to help prevent theft
