

Wooden coloring book for children and adults

This wood coloring is a carved mermaid figure from plywood for decoration. The coloring book is great as a gift for home decor, as well as for developing children's skills: fine motor skills, accuracy and a sense of color harmony.

Coloring material allows you to decorate pictures in various ways, kicking your imagination into overdrive. You can use paints, markers, pencils, glitter and crayons.

Convenient coloring

To make it easier for children to color the drawing without mixing liquid paint between the elements, we carve each contour with a laser. Thus, a small deepening was formed between the elements, which separates one color from another.

Eco-friendly and solid coloring

For the production of coloring we use only environmentally friendly materials: birch plywood and natural oil impregnation with wax. The plywood is made of impact-resistant materials, so it can withstand falling even from two meters on the tiles.

The painting is covered with natural oil with wax, which prevents wood from rotting from waterlogging; protects the product from scratches from the sharp nib of pencils, stains after alcohol treatment and other damage.

Delivery

The kit includes a wooden coloring and a sticker as an example of coloring a picture, packed in a branded box. We deliver this coloring to all US regions through all available delivery services on Amazon.

Return policy. Before sending the coloring, we check the quality and pack it in thick cardboard to avoid damage during delivery. But, if you suddenly receive a defective item, please contact us within 14 days from the date you received the package. We will send you a free substitution of coloring as soon as possible.
