HISTORY

Read more about 616 Logan [here](#).

In general, I'll be working with the majority of Logan's canon. I haven't read nearly all of it, so if Logan has an interaction with your muse that you want to explore further, feel free to rec the comic to me! The things from his canon that I feel are relevant to understanding my portrayal as I catch up on the comics:

- He is **CANADIAN**. While he spends a majority of his time in America and has been part of the Weapon X program—and nationality doesn't matter much when you're a *mutant*—he'll always prefer things that remind him of home in the wilderness.
- Per my main verse, we go canon divergent at the start of the Krakoa comic arc. Read more about it [here](#), but tldr; Logan stays in New York and revitalizes the dream of a school for gifted youngsters.
- I'm keeping the hot claws. They're just fucking cool and not one of you can stop me.

ABILITIES	Heightened senses, adamantium skeleton and claws, healing factor
