### Read letter to me!

Dear Grandchild,

I am very concerned with you're upcoming journey to my house.(1) I have so many questions and concerns for you that I don't know where to start! But, I'll give it a shot and hope you consider my concerns as well, because Grandmother always knows best! Hold on one second, someone is knocking and I have to answer my door...okay, I am back now.  
(2)

So, when do you think you will start your journey to my house?(3) I am concerned with some animals you might encounter in the thick of the forest on the way to my house. For example, snakes will roam in the thick of the grassy areas sometimes a hog or two would show up on the walking path.(4) Be careful!

In addition, I am worried about you getting lost in the thick forest! There are paths but them can be hard to spot and follow at times.(5) If you have one, bring a flashlight so you can see in the dark forest, during the day and night. The thick trees provide a lot of shade and light can be difficult to use for guidance.

Please let I know when you will be starting the journey so I can be on the lookout for you.(6) Remember, watch out for animals along the way and pay attention to the path to my house. If you have time, right back to I - see you soon!(7)

Love,  
Grandmother
