

Medical Concentration
Master's Culminating Project Approval Document

Student Name: Daphne Vazquez Duque

Name of Project:

Are you part of BLC:

Please answer the following questions:

1) A description or summary of the project:

Intended to highlight the scope of practice in Aural Rehabilitation as well as create more awareness around the need for more Aural Rehabilitation specialists. This project will give graduate students tools and resources to take with them if they are interested in Aural Rehabilitation since nothing is covered at the graduate level focused on Aural Rehabilitation. Goals project will highlight: There is a huge need for AR services

- For adults
- For families with kids

Goal: more professionals in this area of practice to serve need

Resource guide for **students**. Exploration of the options for AR - what all can be done.

- Lists of jobs
- Where they can apply
- Quotes from folks in this field - interviews...

2) How will the project increase your knowledge or skills as a medical SLP?

This project will expand the scope of practice options to graduate students as they think about where they want to focus as SLPs. It will also create more understanding, awareness and opportunities for CF and job opportunities. Furthermore, it will give us more tools in our tool belts as we can refer patients to specific AR specialists within our local community.

3) Who are the project mentors?

Curtis Hartling

4) What are the key aims of the project?

To provide graduate/undergraduate students, and the community with more details on the role in Aural Rehabilitation and what options we have in Aural Rehabilitation as well as what it entails. I aim to provide SLPs with a resource that will provide them with more information and give them tools to use in Aural Rehabilitation as well as where they can apply for jobs.

5) What are the key deliverables of the project?

- The key deliverables of the project are to provide students and organizations with a print and/or electronic pamphlet highlighting these areas:
- **Why** AR is important and profession is needed
- **What** AR is and it's purpose-exploration of the options of AR and what can be done
- **Who** the client population is and how AR serves the community: For Adults and for families with kids
- **When** AR is necessary
- **How** it benefits the community and SLP's- more jobs
- Include goals- data what's the need?

For SLP's/Students:

- List of Jobs
- Where they can apply
- Quotes and interviews from professionals
- Resources for the community
- Literature review

6) Will you be presenting on this project? If so, where?

- Discussing a possible presentation to ASHA, Student academy of Audiology and at the University level

Please send your completed document via email to the committee: Deanna Britton, Cassie Quinn, Brandon Eddy
