

Your Excellency, President of the United States Joe Biden,

We are writing this appeal with a request and hope for help! On February 24, the whole of Ukraine woke up to the terrible news - war! The big cities of Kyiv, Kharkiv, Ivano-Frankivsk, Chernihiv have suffered from large-scale explosions of airports, military facilities and warehouses.

The 12th day of the large-scale war launched by the Russian Federation against Ukraine continues. It is no secret that Russia's faithful ally is Belarus, from the territory of which missiles are constantly flying, from the borders of which Russian equipment and troops are leaving. Since the beginning of the war, a lot has changed! The civilian population (including women, children, the elderly) all suffer! Many cities have been destroyed, orphanages, residential neighborhoods are being shelled, families are dying! Ukrainians all over the country are begging to stop this horror! The 21st century, a time when everyone can express their opinion, has a right to a peaceful future, but millions of people in their basement tremble at every sound.

All Ukrainians need your support! Please provide military equipment in the field of air defense. Prevent the spread of Russian disinformation and help to disseminate reliable information. We call to close the sky over Ukraine!

Every sanction, every act of support makes sense. Today's situation needs radical solutions! We hope for your support!

1. Symonenko Oleksandra Evgenevna, Student of National university of life and environmental sciences of Ukraine
