WORK EXPERIENCE

Backend Engineer , [Vaimo] September-2023 - Current

As a Backend/Support Engineer, I collaborated to ensure reliable e-commerce platforms, using Grafana and K9s for monitoring. I managed deployments with Jenkins and Docker, incorporating testing pipelines. I provided platform and backend support, tracking tickets in Jira. I automated recurring tasks with Python. My focus was on team collaboration and maintaining a stable platform.

Full Stack Engineer[Sci-Bono Discovery Center] Oct-2022 - Oct 2023

Design web and mobile application mockups, create static user interfaces and dynamic user interfaces with Php, MySQL, Laravel, Django, Bootstrap and React.
