805-596-4075

Dear Parent /Guardian:

The teachers at Los Ranchos place children in classrooms according to the best interest of all students, both individually and collectively. We pay careful attention to creating balanced classes by considering the following factors:

- student's academic ability
- student's behaviors
- student/student compatibility
- gender balance
- individual student needs

This is a complex process. Our goal is to create classroom communities where the combination of students help to build positive and productive learning environments. Our teachers know our students well. We appreciate your trust in this process.

We understand, however, that there are circumstances known to parents/guardians that would be helpful for school staff when making placements. If you want to share this information with us, we will happily take it into consideration. Please complete this form or pick it up in the office. The form should be turned into the Los Ranchos office by Friday, May 24th.

Sincerely,

Marlie Schmidt
Principal
