PASEO VERDE CUL de SAC IMPROVEMENTS

Dear Homeowner:

In the past few months, efforts have been made to improve some of the Cul de Sac roundabouts. New, digitally metered sprinklers have replaced the old controllers. In addition, new landscaping and plants have replaced the old shrubbery at Ash, Birch and Dagwood Cul de Sacs. These improvements will help improve the curb appeal of our neighborhood.

No Parking signs have also been added to help protect the landscaping and sprinkler systems.

We encourage homeowners not to park or drive on the roundabout and advise their vendors or visitors to do the same. Any damage to the roundabouts landscaping will increase our maintenance costs and affect our homeowners' fees.

Improvements to the other Cul de Sac roundabouts are being planned.

Paseo Verde HOA Board
