

Program Development Tasks (for contractor)

- 2.1 Clarify and develop terms of reference for an international advisory group to support development of the Nursing Program at IUBAT.
- 2.2 Develop resources to support development of the Nursing Program. (These resources will potentially include documents and reports about nursing education in Bangladesh and elsewhere, contact names for a database of resource persons, lists of potential clinical practice settings in hospitals and community and so on.)
- 2.3 Prepare an internal report on the current status of all privately-delivered Nursing Programs in Bangladesh, including requirements for registration of students and graduates. The conclusions should state IUBAT's key steps to achieve the program outcomes
- 2.4 Develop a work-plan and identify the resources required to carry out the work-plan.
- 2.5 Communicate project information and outcomes to key stakeholders as appropriate.
