Abstract

The Abstract should be informative and completely self-explanatory, briefly present the topic, state the scope of the experiments, indicate significant data, and point out major findings and conclusions. The Abstract should be no more than 300 words in length. Standard nomenclature should be used, and abbreviations should be avoided. The abstract must include introduction, objective, method, significant finding, conclusion, and implications. No literature should be cited. Following the abstract, about five keywords that will provide indexing references should be listed. Abstract must be written in English (academic writing) using Times New Roman, 11 pt, Spacing 1.

Keywords: List three to five pertinent keywords specific to the article; The keyword must be different with word in the title.
