

Welcome to Calculus, a different kind of math.

In order to have a nice time in calculus, it is advisable to *not* be struggling with algebra topics. Here is some practice for you to do this summer. Due upon return.

P1 p.8 #2-40 even, 60-86 even

P2 p.15 #2-74 even

P3 p.27 #2-54 even 66,76,82,88,92

P4 p.34 #2-18 even

[Book](#) No, I do not have actual copies for you. It's just not in the budget, if you want one, buy one.

[Videos](#) to learn from

[Website](#) for calendar and other misc.

You will have a test over this material on the fifth-ish day of the semester.

I look forward to working with you. Don't be scared, Calculus is easy if you have a good foundation to build on. Don't have a good foundation? No worries, Khan Academy offers free practice with instant feedback.
