

## Quiz on Camerawork (Form C)

Silver Screen, Carty

In [this scene](#) from the 2013 movie “Gravity” astronauts Stone and Kowalski are on a mission to repair the Hubble Space Telescope. Space debris collides with their shuttle and causes a chain reaction that sends Stone drifting into space.

Use the scene to answer the following. *\*Each answer should be detailed, specific, and probably a few sentences long.*

1. Using specific terms from this week’s lessons, briefly but specifically describe the camerawork in this scene.(50 Points)
2. What, specifically, are some of the things (beyond the obvious facts) that this camerawork helps the audience feel and/or understand? (30 Points)
3. How/why, specifically, does this camerawork help the audience feel and/or understand these things? (20 Points)
