IPad Chopping Block: What can technology do and can't do. Technology can let you do assignments on the road and save stuff on a hard drive. Technology can't be used as toilet paper or paper towel.

How schools kill Creativity: You and others have to be more creative in classes so you won't lose the creative ideas.

Creativity as a Live Skill:

1) So you have many ideas to create when you're creating something.
2) Dont give up on creating ideas and when you get an idea you should see if that idea is possible to do.

How I Became 100 Artists?

Good job creating all the art

What would you like to re-design or design from scratch that could change the world?
I don't know what i would re-design or design from scratch the world is already a good place.

Steal Like An Artist:
What do you think is the key to being a creative thief?
i think the key to being a creative thief is taking someones work and adding your own idea to it and not being caught when you're taking it
