Chapter 70: Failed Experiments

Sunny had dropped off her crew at the base while she headed to the room of the once called element of loyalty "Well, I have to check on our personal cheerleader and… oh I see." Sunny stops her walk when she bumps into a long line of demons waiting for her turn with Dash. Sunny advances through the line to enter the room of the whore cheerleader, inside the room, the emperor found a room full of beasts from hell, as soon as Sunny could see the windows of the security room, the beds were shattered just like the desks. the smell of musk was noticeable throughout the room, the smoke emanating from the noses of the demons caused a mist that was visible throughout the room, the bodies of the beasts dripped sweat, as if they were in the flames of hell itself. Sunny saw how all the demons were erect and impatient, they wanted at all costs to fuck the little mare was on the ground in a pool of hot cum while her pussy and ass were ravaged mercilessly.

Where once the comet desk was, now Rainbow Dash is on her back moaning weakly as she is brutally fucked by two big, muscular demons who used the poor mare as her personal toy. the consecutive sounds of "PLAP!" while they fucked her they were music for all the beasts present.

Sunny pushes her way through the crowd to catch a glimpse of Dash. The emperor got hard when he saw the big bloated stomach of the cheerleader whore, incidentally, was completely destroyed, leaving only a miniskirt that joined both cheeks of her butt. The swollen stomach of the mare collided with the abdomen of the demon who dropped the weight of his body to crush Dash's stomach, the sperm quickly traveled down his throat and out of his mouth like a hose, Dash gargled with the sperm while He was still fucked with little mercy. the rest of his body was also used with multiple scratches, tally marks, many degrading and humiliating insults, his multi-colored tail was cut off and used as a masturbation tool by demons, his face was in a sea of tears, red eyes, makeup messy all over his face, severe burns around his body and signs of not having slept for days, his limbs were limp like spaghetti soup, letting it be seen that he had given in to the cocks of these beasts and not being able to do anything to avoid let them get away with it.

"Oh shit, you did have fun with her, didn't you guys?" Says Sunny

"Yes, we loved her holes, she's the dirtiest and dirtiest pony we've ever seen, with that outfit and long hair, well ... it was impossible to resist the temptation to fuck her to death." Says the devil that is in her pussy.

"In addition to her being a hero and an element of harmony, it was obvious that our goal, Starlight left us unsatisfied in hell, so what we couldn't do with her, we took it out on your fucking mare." Says the one in dash's anus. both demons begin to charge with force, the sounds of meat against meat were more prominent and loud heard outside the room, encouraging the crowd of males waiting outside for a turn.

"AHHH! AHHH! AHHH! ”. Dash moans with what little strength she has left as the demons around her approach to give her a bukkake and bathe her in completely white liquid. Dash

looks at how all the cocks point towards her, at this point Dash's mind does not think of anything other than pleasure, the mare opens her mouth sticking out her tongue and forming a silly face that excites even more demons, everything to be able to swallow all the semen that falls into your mouth

The demons in her pussy and ass buried her members with everything and balls inside Dashie's holes, emptying all the sperm inside her that inflated her stomach even more. those around her do the same, cumming all over the multicolored mare's body. They covered her body with a dense layer of sperm, one of her eyes was closed by the sperm, most of the semen ended up in her mouth filling her, Dash filled her jaw with gallons of sperm that puffed her cheeks, so the hot semen began. to burn his mouth, but the pain was something Dash didn't seem to mind, and he swallowed it without complaint, only for seconds later, his mouth to fill again.

The demons give one last push to confirm that they are done with the mare. The demons pull their cocks out of their holes, as soon as they withdraw, dash's pussy began to gush out all the semen that she couldn't contain, looking like a waterfall and staining the ground more than it already was.

"What a nice creampie they did to the whore cheerleader." Sunny says approaching Dash. The first thing the emperor noticed was again her huge stomach, and disturbingly enough, Sunny managed to make out a colt's head, hinting that Dash was going to give birth again.

Dash raises his head weakly and looks at the twisted smile of Sunny and the rest of the demons with their erect cocks, Dash lifts his head a little more and cannot even see the door of his room, he only knows that there are more demons waiting for him. fuck her.

"Sssun-Sunny ... Hhhh-help ... my baby ... is close ...". Dash gasps, the mare hasn't rested for hours or maybe days, by the time it stopped being relevant when she woke up from the freeze.

"Well, what are you waiting for bitch? Get it out at once, so these demons can fuck you to death. "

“Bbb-but… he's drowning…. for the semen…. inside of me".

"What a killjoy you are." Sunny lifts her helmet.

"Wh-what are you ~ AHHH!" Dash screams when Sunny crushes her stomach cruelly, the semen was coming out of her holes, even Dash felt that the liquid passed down her throat and again, it came out of her mouth, Dash's eyes went to the top of her head.

"HAHAHA! Like a condom used now, that colt or filly can easily come out, do your bitch job, while I fuck your ass. " Sunny picks Dash up and puts her in a doggy position, the emperor uses his magic to stretch his mane and turn his face, they both stare at each other, Sunny sees Dash and this only reflects a broken look and although he says nothing, the Mare

wanted more, Sunny shoves his cock up her ass, Dash gasps when she feels the huge shaft inside her as she pushes for her new son to come out into the open.

"Oh god, forget how your Rainbow-Slut holes felt, you are without a doubt one of my favorite tools." Sunny says massaging RD's flanks.

"Thank you". Dash says barely pronouncing, stammering some words.

"Haha! Now that I think about it, you have a beautiful body, too good to be able to fuck; with this mane ". Sunny tugs on her hair making Dash moan in pain.
"These flanks with lightning cutie marks." Sunny slaps him hard on the sides of her and another dash scream manifested. "This thick butt." Sunny puts on her hooves and begins to bring the cheeks of her butt together that covered part of her cock and with each thrust of her she shook. “You are perfect Rainbow Slut, you have the ideal body for any man to fuck you, this body that you have a mare is very good. How is it possible that in your time no stallion had dared to touch it? I am sure that you were the dream of many foals, stallions and even old stallions. You were desired by anyone ".

Rainbow She didn't say anything, she only imagined what her past life was like. Dash could say that Sunny is right, in her time she was a mare that many stallions wanted to ask out, but only with the intention of getting laid with her, even she felt the stares of all the males wherever she went, even colts are drawn to her, but Dash never cared… until now.

“You have a good body Cunt, but when we get back, I'll improve it like I did with your fucking friend Twilight, so more and more men will desire you and fuck you until you are a decrepit old woman…. in fact, from now on you will be gang raped, not even Comet will have you all to himself, do you like the Slut idea? "

“YYY-YESS !!! I WANT EVERYONE IN MY HOLES !!, I AM NOT GOOD FOR ANYTHING ELSE !!! ". Dash yelled as he kept pushing for his colt to come out. Sunny manages to see the head of Dash's son or daughter, it was a rainbow-colored hair like her mother and her white fur. Sunny smiles and climbs on top of Dash who is too weak to support the emperor's weight, causing his legs to shake.

"Well said silly mare, now that you say you are useless, I think I will have to do something with those wings, also after this, I have some plans for you and I need you to be ready and presentable ... I will invite some friends, was that clear? ". Dash nods slowly, as he gives his last thrusts to get the baby out of him. Sunny does the same by devastating her overused Ponut while she chews on her whore's ear, drawing blood in the process.

The demons that were around him, just watch as the emperor takes his whore as he wants, they fell silent due to the conversation and clearly heard every word of the emperor and with pleasure, they will fuck Rainbow Dash in an endless gangbang. The beasts kept looking at the pair, until they saw the Pegasus mare calf emerge.

"Look at that, a baby came out of the mare."

"I just hope she's a female, I can't wait to stick my dick in and destroy her holes."

"Of course I do! I also want to fuck her mother to make me a demonic child."

Multiple cheers from the crowd are heard in the room. Dash is glad that her daughter is joining the party with her mother and daughter getting fucked in a gang rape that will never end. Dash thought this was about to end but it was only the beginning.

"Good RainbowSlut, now it's over." Sunny cums on Dash's ass who moans loudly, her scream was heard throughout the ship. Sunny takes her cock out of her and throws the last cups of her cum on Dash's back who falls to the ground to take a little break. The emperor looks down and sees his baby. It was a larger than common baby, almost the size of a large filly, its abdomen was the strangest that the emperor had seen, since it had scales similar to those of ember, its tail was like that of dragons but in Its tip was multicolored, Sunny looked well at the girl's face and managed to see a fang, her hooves had no change at the moment. She was a half dragon, half pony filly.

"Damn it ... if Comet sees this, she will not leave you alone and possibly drag you to the dragon kingdom to become her breeding mare." Sunny says as she walks over to Dash.

"You are incredible whore, all those rape sessions with Comet paid off, you gave birth to a hybrid mare something that doesn't happen very often." Sunny only sees Dash who slowly closes his eyes.

"Oh come on cheer up! This is not the time to rest, did you forget that around you there is like a pack of demons that are not yet satisfied?" Dash feels something hard that pricks his ass, the mare lets out a weak moan of pain when his mouth is covered by two thick cocks, two lucky ones crawling under Dash to put his members in her pussy.

"GLRKGLRKGLRK !!!!"

"What do you say? I don't listen to you with my mouth full, bitch ". Sunny says mockingly. "Anyway, after you're done I'll come back for you, don't forget what I told you, presentable and sexy for me and my friends, I recommend that you call the black humans, they can help you look more dirty than you already are" . Sunny heads out of the room while Dash follows him with his eyes hoping that he will stop this torture, seconds later her view was blocked by another demon and his erect piece of meat pricking Dash's cheek. More demons piled up around her and everyone grabbing every bit of the mare and once again the famous Rainbow Dash was buried in a pile of demon bodies.

"Guys I know I'm not her leader, but please impregnate her with a demon child." Says Sunny to the infernal dragons.

"Oh damn we will, but what about her daughter?"

"You can also fuck her as she plasters you, just don't kill them, I need them for the wedding."

"YES EMPEROR !!" The demons say in unison.

Sunny leaves the room, leaving mother and daughter to fuck the entire crowd of demons. Rainbow Dash's moans are louder again so much that she caught the attention of the other men on the ship who immediately came to her call.

Rainbow mare holes will not stop being used.

Incoming call

Sunny sees her communicator on her arm. "Here the emperor, what happens?".

On the screen, Sunny sees a skinny-looking scientist with circular lenses while experimenting with two test tubes, next to her was a blue mushroom from the planet of insects. The mushroom had several cables connected around it, Sunny noticed that the mushroom was making erratic movements from one side to the other.

"What the hell did you do to that mushroom?" Sunny says.

"Hello Emperor, I'm glad that you answered my call, I don't know why but every time I call, the answering machine tells me with its voice: 'DO NOT BOTH DISTURB', the funny thing is that I asked the other members of the ship if it happened to them. the same but they tell me no, is it just my boss? " The scientist is distracted by causing a small explosion that fills his face with ashes, his glasses fall in a comical way and his robe was almost destroyed.

“Umm, no… of course not, how dare you think that I ignore my employees? Surely this thing is failing * Damn this guy, who said it was a good idea to bring him on board? * Anyway, what do I owe your call to… Bobby Jr. " Sunny says the stallion's name in an annoyed tone.

"Oh right, look at this mushroom sir, it was brought in by Comet's expedition team." Bobby Jr. says touching the mushroom.

“Yes… amazing, is that all? I'm very busy."

"I have not finished, doing my research, it turns out that this fungus has unique properties that can serve us for the future or to win the rebellion against those mares." Bobby Jr. says showing a record sheet with all of his experiments on the fungus.
"Sure, with what properties? What can they offer? You better tell me something interesting or else I'll just skip it and I won't let you fuck any female for a year. " Sunny looks at the boy who gets flustered, the emperor arches an eyebrow waiting for an answer.

"W-well ... let's see, it can offer properties like healing."

"Unicorns, doctors, and even nuns do that."

"Well, but they don't heal instantly, it's like something out of a comic, the properties of the fungus heal the user from any wound in seconds, something that even for a Unicorn takes time to concentrate its magic to heal a wound." Bobby says excited.

"I don't believe you, show it."

"Well I'll use myself as a test subject ..."

"Excellen- Wait, what?" Sunny says confused and looks at Bobby Jr. with a knife in her helmet. the stallion places the knife on the soft part of his forearm and makes a deep cut, blood begins to gush from his arm.

"FOOL! WHAT THE FUCK ARE YOU DOING ?! ". Sunny cuts the call and teleports to Bobby Jr.'s lab, finding the healthy stallion without any injuries.

"But how?! What happened to your arm? Sunny says looking at the skinny stallion's arm.

"It is what I said, I injected the properties of the fungus into my body and the wound healed instantly." Bobby shows him her arm and indeed there was not even the mark of the knife's edge.

"Uufff what a relief ... your father would kill me if something happens to you." Sunny says wiping the sweat with her helmet.

"Oh I'm glad you're worried emperor, I'd like to hug you right now." Says the innocent stallion.

"Yes ... Don't do it or I'll cut your dick." Sunny threatens Bobby who ignores the threat to look for his notes.

"And what else can this mushroom do?" Sunny says.

“Well, I found out that it also makes you stronger, perhaps stronger than a minotaur. Also that exhaustion is no longer an impediment, literally my resistance increased a lot when I masturbated with the videos of the Mane Six being gang raped by demons ... I would love a chance with Twilight, Pinkie and Rainbow Dash sir. " Says Bobby Jr. showing his erect and hard cock at the thought of the mare he most desires.

Sunny looks at his cock and is amazed at the effects it had on the fungus. Before I knew Bobby for being the least ... gifted with his crew, being that his cock was not very big compared to the guards reaching a mediocre 10 inches and despite having fucked multiple mares, the poor stallion has not managed to get any pregnant throughout her life, but now sunny feels she will be different.

Bobby's mediocre cock grew to about 16 inches, the erect neck throbbed like a heart, the veins around it were more visible and a phosphorescent blue color. His balls like his cock grew to the size of beach balls, they were phosphorescent blue just like his cock.

"What a load package there, I have Bobby." Sunny says mockingly.

"Hehehe I'm glad you notice it, I also notice that my abdomen becomes more toned, I suppose that soon my body also undergoes some noticeable change with more time that passes". Says Bobby with joy

"And what else can you do?" says sunny

"Well for the moment it would be all but for what it offers I think it is worth injecting the properties of the fungi of this planet, I need to do more tests ... and also experiment with one of your apes that you call Humans." He says adjusting his glasses.

"Wow I'm surprised that she agreed to help you, with how much they like to fuck Rarity, and where is she?"

"The human? Well, when I injected him with the properties, he left at a speed that I had never seen before, he didn't tell me where he was going and how I met him, the guy just happened to be passing by here ... so I convinced him to make him more virile, stronger and that It could make it impregnate any mare that gets in its way. "

"Well, you nailed it by saying that last." Sunny wears a helmet to her chin and imagines where the human might be. The emperor knows that the blacks have wanted to impregnate one of his mares and lately they are very close to Rarity, so possibly, the lucky human and the unfortunate mare are somewhere on the ship. The emperor is excited to imagine Rarity in a mess and with a large pregnant stomach.

"Well you convinced me, I'll call Twilight to help you, I want to see what your mad scientist skills are capable of and Twilight can help you with that or fuck her mercilessly with that huge pole between your legs." Sunny says pointing to Bobby's cock that she became hard at the thought of her alicorn.

"OH THANK YOU YOUR MAJESTY !!" Bobby hugs Sunny, the emperor feels the overwhelming force of the land pony and in effect it has increased so much that he feels his bones begin to creak. Sunny uses her magic to shake him off.

"Don't do that again ... NEVER AGAIN !!" Sunny says in a threatening tone.

“Oh I'm sorry, but when I think about that fucking mare, my emotions get out of control. When he gave her that potion and watch her turn into a bimbo mare… god, how her men raped her nonstop… her moans, her beautiful moans… her huge purple butt… seeing her holes stretched by multiple cocks of different sizes and being covered of semen almost all

the time… BOBBY WANTING TWILIGHT SPARKLE BUTT! ”. Sunny watched as the scientist's eyes turned orange and prominent fangs showed for a few seconds.

"Bobby? What the fuck?” Sunny stares at him and sees that the effects wear off, Bobby pulled himself together quickly and looked at Sunny with some nervousness.

“Oh nothing to worry about, it was just him… the heat, if that must be it, I have been so tense that I have wanted to fuck a mare, but those demons capture them as soon as they see one… please bring Twilight to help me with… my problem ”. Bobby says more relaxed.

"Okay ... if you say so, although it is true that the demons are monopolizing the mares for themselves, they must leave as soon as possible, I will go with Starlight at least I hope she has enough capacity to speak and I will suggest that she sacrifice Trixie so that that bitch can learn her place ”. Sunny turns to leave the lab but Bobby stops him.

"Before leaving this room, I have two things to ask of you."

"What else do you want?". Sunny says something annoyed.

"Well the first one, besides Twilight, can bring me Pinkie Pie and Rainbow Dash? I've always had the fantasy of having a threesome with those whores ”. Bobby says and Sunny for a moment she sees again how her eyes glow orange but with a blink from the Scientist they return to normal.

“Eh… well, Twilight is with the demons possibly in hell, so I have to go pick her up * AND PRAY THAZIR'S SISTER TO BE THERE *. As for Pinkie, well I must remove the seal from her room ... I left her in the nest of demons, they are probably using her as cattle at this point and the whore cheerleader will be a difficult case, I just visited her and her second daughter was already born If you wanted to be the first to get her pregnant, I have bad news for you… a horde of demons are surrounding her and fucking in all her holes… I am surprised by the resistance of that mare, not even Starlight could stand the demons. So for now you will have to wait for the demons to finish using it, plus I have plans with Rainbow Slut, my friends and I included but I give you my word that you will have your mares as soon as the demons return to hell.

"Oh great ... if you can invite me to her plans with Dash." Bobby says, squeezing Sunny's helmet tighter.

"Sure, just promise me that you will have more progress on your experiments with mushrooms, what is the other thing you wanted?" Sunny says, pulling her helmet out of her brutal grip.

"Demon blood ... I think they could be a perfect match for a new experiment." A wicked smile forms on Bobby's face.

"Do you hear what you say? Those guys can destroy the ship if I do it, but maybe Starlight can help you with that request, I just hope that whatever you are doing is controlled and does not cause chaos, remember that we must return to earth as soon as possible ”.

"Do not worry her majesty, things will work out ... I assure you." Bobby says with a malicious tone.

Sunny just nods and teleports to another location. Bobby, seeing that she left, approaches the monitors, sitting in his chair. The scientist adjusts his lenses and looks at the ship's cameras, both interior and exterior. Outside you can see a massive rape of mares being raped by insects, many mares lying on the ground with prominent bellies, staring blankly and full of satisfying pleasure, little eggs come out of their pussies, asses and mouths, the mares were panting Due to fatigue, unfortunately for the mares more insects arrived and grabbed the mares that were defeated and pregnant and began to fuck them again, once again the moaning festival began again.

Bobby takes his cock and starts to masturbate, he starts watching the other cameras on the ship looking for something more satisfying.

“Mares gang-raped by giant insects… not bad, but that's not what I'm looking for, where the hell is that human in love with Rarity? that interracial gangrape material is one of my favorites… maybe his communicator is on, that will be enough to see where he has gotten himself ”. Bobby calls the human's communicator.

At first, the mad scientist found it difficult to establish a connection with the human's communicator since only static was seen. After a few minutes, the scientist could finally see an image of where the human was ... what he saw made him go into shock.

The communicator was on the ground pointing to a white mare with purple mane sitting under a mushroom tree and being badly injured; With multiple scratches, messy makeup, disheveled mane, small visible bruises around her body, her legs were open to their limit allowing her to see her holes full of sperm gushing out, her mouth also came out white liquid, the mare's eyes looked at The upper part of her head, the mare in question gave slight spasms and heavy breaths, her limbs were weak, it seems that this mare was passed over by a truck, the most worrying thing was her belly that seemed pregnant with twins.

"Wait ... is that Rarity?" Bobby is amazed at the status of the once proud element of generosity, the mare was so emaciated that she made a fool of the mares that Sunny tortured for treason. The scientist's cock hardened like a rock at the sight of the broken mare on the screen, something inside him wanted to get on the screen and fuck the defenseless mare and break her more than it already was.

"Jeez ... he looks so sexy in that state." Bobby takes his cock and starts to jerk off. suddenly a shadow completely covers Rarity. Bobby without stopping jerking off her, deduces that she is the human, the scientist can't wait to see how she fucks the mare again to turn her into a nympho whore.

"Enjoying the view friend?" The human says with a deeper tone of voice that detail made Bobby worry a bit.

* How weird, I don't remember her having that voice * "Of course I love how you handled our seamstress, did you have enough fun with her? Did you achieve your task of getting her pregnant? " The camera turns sharply and shows the human's face… or what Bobby thought was the black Human.

What scared Bobby was in the human's body, the body became more muscular and toned, veins around his body were visible, Bobby sees how every vein in his body throbbed, he even sees the blood circulating perfectly, the color of his skin I let it be a dark black tone, to a white color. What disturbed Bobby the most was his face, white eyes, wrinkles all over his face, hair loss. the monster stared at the camera, without a hint of emotion. the scientist stopped masturbating, the face of the before human made him feel uncomfortable.

“Yes, this whore is now pregnant with my offspring. I fucked her for hours, now I'll take her back to the boat ... and speaking of other things, you and I will have to talk ... this thing gave me ... it makes me feel strange, my cock is still hard and grows more than normal ... also I hear many things in my head, normally I like to think while I fuck a woman or mare but lately I only listen; reproduction, rape, reproduction and more rape ... in fact when I saw this bitch mare ... my desire to rape her has increased, you must have seen it ... I raped her, I hit her, she did not stop moaning for a single moment, I did not give her mercy or rest , nothing, absolutely nothing, I only cared about destroying her, fucking her until I couldn't take it anymore ... I could have fucked her more until you called me, that's when she regained some consciousness, but I can't control myself for too much ... time ... time ”. The human throws the camera to the ground, it falls and breaks showing little image of what is happening, but Bobby manages to see the human approaching Rarity like a predator stalking his prey.

Rarity looks at the human and sees his eyes start to glow white again. his cock grows back and gets hard, the monster looks at the mare like a piece of meat, a set of holes that deserve a good fucking.

The seamstress for her part cannot do anything, she is only on the road, time seemed to cease to make sense, she has been screwed so many times by this thing, she began to tremble, thinking about what this creature will do with her.

"P-please ... just ... just give me five minutes ... and we can continue ... please ... I need it." He asked rarity trying to reason with the human, who at this point stopped looking like a human until he became what he is now but as she knew, her words had no effect on him and she sees how the weight of the monster falls on her and his cock 20 inches, hard as steel, with red veins around and throbbing like the heart is introduced into her pussy filled with white cream. Rarity begins to moan weakly, she closes her eyes, losing consciousness little by little, the mare just waits for this to end when she wakes up.

The communication of the video is lost, Bobby is silent, he thought about everything that happened in the video, he thought about how the human transformed into a creature incapable of getting tired, always being hard, superhuman strength and speed, eyes that paralyze with the fear… he needed to do more tests. The scientist looks at his helmet and sees how he begins to lose the color of his fur as well as the hair of his mane, for many this could be alarming, but for Bobby Jr. he only showed an evil smile, he knows that all this will be worth the sorrow.

"The emperor will be satisfied with my experiments." Bobby says looking at the mushroom and he realized that it was moving erratically from one side to the other, Bobby approached and a smile formed on his face.

The mushroom had eyes ...
