

# Robin Flynn - Entheogenesis 2023

## What You'll Discover in These 7 Modules

In this 7-part transformational intensive, Robin will guide you through the fundamental skills and competencies you'll need to successfully reclaim your sovereignty, connect directly with Source — and awaken the potential of your inner healer through the power of Entheogenesis.

This course will feature step-by-step teachings and experiential practices with Robin. Each session will build harmoniously upon the previous ones, so you'll develop a complete holistic understanding of the practices, tools, and principles you'll need to explore master teacher plants and psychedelics for healing and awakening — to achieve physical, mental, and spiritual wellbeing.

### Module 1: Invitation to “Know Thyself” Through Master Healing Plants & Psychedelic Molecules to Awaken You to Your Soul

We'll begin the course with the timeless call to *know thyself* as a divine being of an *eternal nature*, married to form in the animal kingdom through your *mortal coil*, the physical body. The inner calling to divine sacraments for healing is our ancient birthright and soul path of initiation.

In a design of infinite beauty and elegance, we're engaged in a cyclical dance of the mutually supportive dynamics of *healing* and *awakening* — experiences of awakening heal our bodies, minds, and hearts... and healing fosters greater awakening.

You'll be guided to realize yourself as a unique individual soul on a specific evolutionary track — and feel yourself become part of something much larger...

You'll be invited to explore the initial steps of the inner call to the divine sacraments that are your ancient birthright — and to the soul path of initiation into higher expressions of yourself.

In this module, you'll:

- Receive a clear invitation to understand and **experience yourself as a non-physical divine spark** (i.e., a “soul”) having a human experience
- Explore the **holonic model** — how layers of experience and wisdom transcend and include preceding and informing inner layers — and how they extend into the realms of the *imaginal*, giving birth to “what will be”
- Learn how **profound healing is an experience of *awakening*** — for all experiences of awakening heal hearts, minds, and bodies
- Discover how *master healing plants* and *psychedelic medicines* **awaken you to the truth of your soul**
- Experience **Holon Embodiment Practice #1** — Consecrate your sacred space and take a shamanic breathwork journey\* called **The Temple Within Awaits You** to begin the process of cultivating your inner sacred space — a Circle of Sanctuary.

(\*Each shamanic journey throughout this course incorporates original music co-created with conscious hip-hop artist Kosmic T, Darcy Kopas, and producer Entheo, guided heart-coherence practices, vagal nerve-toning, simple breath pattern, and awakening of shamanic sight.)

## **Module 2: Understand Bodily Autonomy & Spiritual Sovereignty to Embody Clear & Clean Physical & Energetic Boundaries**

The key to profound healing lies in the reunion of our spiritual sovereignty and bodily autonomy. **For too long we've sought answers and divinity beyond ourselves**, surrendering our power in the process. This misalignment only serves to perpetuate harm — especially in the realm of plant medicine ceremonies.

As we approach our work with reverence for the sacred mysteries and the use of mind-expanding elixirs, we invite ourselves to embark on a journey of heightened

awareness. The path to personal power is one we must traverse ourselves, lest we surrender it to those who would be all too eager to seize it in our stead.

Reclaiming our sovereignty is not a one-time feat — it's a constant journey. You'll delve into this pursuit, peeling back the layers to understand how our power has been diminished, and what steps must be taken to reclaim it.

In this module, you'll:

- Explore the **power of consent, body autonomy, and spiritual sovereignty** — as well as the Law of Free Agency, the Universal Non-Interference Clause, and how these dynamics are operational within the shamanic realms
- **Discover that spiritual sovereignty and body autonomy are one in the same** — and that in order to experience *true healing*, we have to clean up our co-dependence, patterns of personal disempowerment, and tendencies to look outside ourselves for the “healer”
- Gain understanding on how **everything within creation is alive** — and therefore we can create relationships with all of life through the law of *Ayni* (sacred reciprocity)
- Contemplate the **Sovereignty Paradox** — *I can respond to everything, and I am in control of nothing*
- Experience **Holon Embodiment Practice #2** — *Shamanic Journey: Spiritual Sovereignty & Soul Power* — fortifying your energetic body for remembrance, reclamation, and reconciliation

### **Module 3: Escape the Labyrinth of the Past — Draw Your Precious Power Back to the Present to Live Fully Now!**

In the world of divine sacraments and psychedelic therapy, **we have the opportunity to tap into immense power for healing trauma** and moving into post-traumatic growth. However, it is crucial to be well-informed about the effects of trauma, as this element is often overlooked in plant spirit medicine ceremonies, ketamine clinics, and underground psychedelic therapy. **Without proper guidance, it can be easy to fall into the trap of the past** — getting lost in repetitive thought patterns that reinforce limited beliefs about oneself and reality.

You'll delve into the **ancient wisdom of the Kamaska Curanderismo tradition** and learn tools for **liberation from past trauma**. This knowledge will be reinforced by cutting-edge research on memory. You'll also build your second Circle of Sanctuary through a guided process to re-establish your connection to the cosmos of earth and sky.

In this module, you'll:

- Discover that to be *trauma-informed* within psychedelic/entheogenic containers creates a space where we can **finally begin to heal** the incredible impact of harm, loss, suffering, pain, and fear from the past — which paradoxically does not actually exist, except for in the present
- Receive an **overview of neuroplasticity, neuroimmunology, epigenetics, intergenerational trauma**, and the awesome power of strategic work with entheogens to transform the imprints of the “past”
- **Explore the potent force that is ancestral trauma** — while not accepted as such by conventional medicine, shamanic practitioners worldwide generally consider cancers and most diseases to have roots in un-resolved ancestral trauma
- Discover a powerful practice for restoring and revitalizing your energy field that you can do every day at home... **limpias and elemental cleansing**
- Experience **Holon Embodiment Practice #3** — *Shamanic Journey: The Eternal Love of Creation... Earth, Moon, Sky, Sun, Soul* — build your second Circle of Sanctuary through a guided process to re-establish your connection to the cosmos

#### **Module 4: Reclaim Your Invincible Innocence to Awaken Your Inner Healer & Connect With Your Guides, Ancestors, Ascended Masters & Your Higher Self**

Within each of us lies a healer, waiting to be awakened — the elusive *inner healer* that dwells within the very essence of our being. **Alignment with truth and love, with the Divine, brings about this healing.** Through the use of sacred sacraments and the guidance of heart-centered practitioners, we are able to tap into this inner wisdom and rebuild our neural pathways — fortifying our meridian system, those “rivers of light.”

You'll delve deeper into ancient healing systems that have long understood the power of ceremonial entheogens, *nootropics* (i.e., brain performance boosting "smart drugs") that can elevate your mind, body, and spirit.

The creation of a sacred ceremonial space is of utmost importance, as you are **surrounded by oceans of benevolent support with whom you can connect** — angelic guides, enlightened ancestors, ascended masters, and the very wisdom of our Higher Selves.

In this module, you'll:

- Explore how healing is not something that anyone or anything outside yourself can give to you — it is *within* you
- Examine how **healing always resides within the invisible innocence of your true essential nature** — and the role of the divine sacraments and heart-centered practitioners is to help you awaken your inner healer
- Discover that a true medicine (and/or teacher) helps us to **awaken from the illusions of separation into the reality of Oneness** — the goal of true healing ceremonies
- Explore the specific conditions the inner healer requires in order to awaken — so you can **cultivate these conditions within you** each day
- Experience **Holon Embodiment Practice #4** — *Shamanic Journey: The Guardians of Your Innocence* — calling forth the third Circle of Sanctuary with a powerful invocation

## **Module 5: Face Your Fears & the Ego-Based Shamanic Shadow Dance to Receive Healthy Power Cultivated From Truth & Love**

Embarking upon the journey of Entheogenesis is a dive into the very depths of one's being — **a plunge into the ocean of *gnosis*, knowledge of spiritual mysteries**. It requires a steadfast heart, an unwavering spirit, and an unflinching gaze into the light and shadow that lie within. Without a foundation built on truth and love, the adventure may turn into a reckless romp, a dangerous dance with the illusions of projection, delusion, and ego.

But fear not... you'll embark upon a quest, a journey to the very heart of Pachamama (Mother Earth). There we shall **call forth the guardians of the sacred mountains and waters** — to guide us on our path.

As we reclaim our place in the dance of creation, we shall come to understand the **true meaning of *spiritual warriorship***, and how to sidestep the separating game of “light and dark,” coming face to face with the healing that awaits us.

In this module, you'll:

- Discover that **Entheogenesis is a mythic experience of gnosis** (embodied knowing born of direct experience), and discuss the light and shadow that live within this exploration
- Embrace the **power of *mythos* and *allegory*** to discern and differentiate visionary experiences within expanded states of consciousness
- Explore “Shamanic Street Smarts 101” — **cultivating discernment in non-ordinary states of consciousness**, particularly around the *cult of personality* — and the pros and cons of entering into sometime dangerous states that are achieved using the most powerful psychoactive substances
- Discover that **disillusionment can be a painful but necessary rite of passage**, as you learn to differentiate between inferior and superior ego structures within shamanic power dynamics — sometimes our greatest teachers show us how and who we *don't* want to be
- Experience **Holon Embodiment Practice #5** — *Shamanic Journey: Divine Interventions of Grace* — creating the fourth Circle of Sanctuary to make amends and release energetic hooks

## **Module 6: Safely Access the Bliss Realms & the Greatest Medicine of All — to Achieve a Life of Authentic Direct Revelation & Healing Grace**

You can't live at the mountain top — but it is absolutely necessary to visit from time to time! **The journey of awakening is an age-old rite of initiation**, a path of preparation, purification, *and* integration — crafted and refined by the wise and experienced for those seeking to embark on the journey.

To avoid the dangers of derailing from life (also known as experiencing Kundalini psychosis), **a delicate balance must be struck between the intensity of awakening and the need to survive and thrive.**

There is an art to transcending the veil and experiencing divine communion, true ecstasy, and orgasmic bliss — and to **bring these transformative energies back to earth**, for healing and service.

The fifth Circle of Sanctuary will be established, with the guidance and love of the ascended masters from far and wide.

In this module, you'll:

- Explore and understand **the “path of Initiation” — which includes processes of preparation, purification, direct experience, and integration**, so that the initiate can survive and thrive within the intense energetics of awakening, not derailing from life, which can sometimes happen
- Learn how to **consecrate and ground in sacred space** and be a bridge to “Heaven on Earth,” able to safely enter and exit the *bliss realms*
- **Understand the ego dynamics of the brain**, including how grace-induced, expanded states of consciousness can be hijacked by the need to feel special or important
- Learn how to **differentiate between true awakening experiences vs. “superior” ego trips**
- Experience **Holon Embodiment Practice #6 — Shamanic Journey: Everything is in a State of Evolution**

## **Module 7: Master the Art of Integration to Realize the Future of Entheogenesis for Personal & Planetary Healing**

*The next Buddha will be the Sangha.*  
— Thich Nhat Hanh

***The future is bright! And Entheogenesis holds the key to unlocking and realizing it,*** but only through *embodiment*. To embody is to fully experience life in this physical form; and it is through this embodied state that we can heal, awaken, and integrate the gnosis we've gleaned through our spiritual practices.

Integration is a crucial aspect of this journey — and **it's through this successful integration of our direct spiritual experiences that we see transformative change in our lives.** Healing doesn't come from one large experience, but rather from the small moments where we remember the gift that has been given to us and choose to apply it.

**This is how personal healing leads to planetary healing** — as every time one person truly heals, that event has the power to shift *all* potential realities toward greater health, wellbeing, and beauty for all. In the final module, we will consecrate our sacred space, the circles of sanctuary, in divine love, divine truth, and in alignment with divine will.

In this module, you'll:

- **Explore what *integration* really means** when it comes to the powerful experiences of divine sacraments and psychedelic medicine — and how you can weave the gold of your medicine journeys into your day-to-day life
- Understand why nature is our greatest resource for integration and stabilizing our energy body after initiatory entheogenic experiences
- Know how to choose your right medicine and right timing on your healing journey
- Know how to call in the support of integration coaches and the emergence of non-local communities to support your journey
- Experience **Holon Embodiment Practice #7** — *Shamanic Journey: Closing Ceremony* — for a direct connection to Source and full activation of your personal Temple of Sanctuary — also reflecting on the future of Entheogenesis, personal and planetary healing, spiritual maturity, and sacred reciprocity

## **The *Entheogenesis* Bonus Gift**

In addition to Robin's transformative 7-module course, you'll receive this special bonus gift to complement the course and take your understanding and practice to an even deeper level.
