SUMMARY

A skilled Software Engineer with end-to-end experience in designing, building, and deploying applications from scratch. Proficient in the PHP/Laravel/WP ecosystem with hands-on experience deploying solutions in Node.js environments. I combine development skills with strong Linux server administration to deliver secure, optimized applications and cost-effective business solutions. Eager to contribute to a team where I can solve challenges and grow. Currently learning ReactJS and core accounting principles to enhance my ability to architect full-scale business applications.

SKILLS

Networking

EXPERIENCE

Qligence Ltd

Software Engineer

Jr. Software Engineer

Dhanmondi, Dhaka

Jan 2025 - Oct 2025

Jul 2024 - Dec 2024

- Optimized complex database queries and developed new features for client projects using Laravel and WordPress.
- Architected system designs and analyzed client requirements to create effective software solutions.
- Acted as the team's cloud solutions expert, advising and resolving complex deployment and performance issues for senior developers working on projects with CakePHP, CodeIgniter, and Node.js.
- Provided cross-functional DevOps support, designed cost-effective deployment solutions, and managed VPS and cPanel-based automation.
- Extended support beyond core development to include office network infrastructure and email marketing setup.

FinvaSoft Ltd (Associate with Qligence)

Software Engineer (Intern)

Mirpur, Dhaka

Jan 2024 - Jun 2024

- Leveraged prior freelance experience to develop new features in Laravel & WordPress and assist in optimizing complex database queries for client projects.
- Collaborated with senior engineers to troubleshoot and resolve software bugs, contributing to enhanced application stability and reliability.
- Applied existing DevOps skills to manage the deployment of applications to VPS environments, demonstrating the technical capabilities that secured a full-time role at Qligence.

JONS Steel & Design Associates, System Engineer & IT Manager (Full-time)

Web Developer & System Specialist (Part-time)

System Specialist - IT Support (Contract)

Adabor, Dhaka

Nov 2023 - Dec 2023

Jul 2022 - Nov 2023

Jan 2021 - Jun 2022

- Promoted from a contract role to a full-time System Engineer, managing the company's entire technology stack from

infrastructure to web presence.

- Engineered the on-premise infrastructure on Windows Server 2019, managing the local VPN server for secure file access, network firewall, backup server, and integrating business systems like IoT devices and the attendance system.
- Acted as the primary technology advisor to the CEO, providing strategic business solutions for email services and IP phone systems, a consulting relationship that continues on demand.

GLOBAL SOURCES BD

Web Developer

Mohammadpur, Dhaka

Sep 2023 - Oct 2023

- Hired for a project-based role to support the company's website operations and technical documentation needs.
- Demonstrated adaptability by assisting with critical operational tasks beyond core development, including content management, technical document creation, and data entry.

Freelance

Web Designer & Developer

Upwork & Fiverr Platforms

Feb 2017 - Sep 2023

- Delivered a wide range of web solutions for international clients, specializing in custom WordPress/WooCommerce development and Laravel applications.
- Managed end-to-end project lifecycles, including client communication, bug fixing, and server management on platforms like AWS, GCP, and various VPS.

Computer Operator

SHAMIM ENTERPRISE

Kishoreganj | Dhaka

Mar 2018 - Dec 2023

TAFITISH TELECOM & MITALI COMPUTER

Jun 2017 - Feb 2018

- Managed daily operations, providing customer service, technical support, and document/graphic services using Adobe Photoshop & Illustrator; also trained junior staff.
- Handled daily customer-facing operations, including data entry, document composition, and photo printing services.
