Report to the School Board

Dear School Board

For the month of May 2023, the Technology Department submits the following report:

District Wide

The Technology Department received 233 New Acer Chromebook model C734. These units are currently in the process of being inscribed with an Asset number as well as joining our Google Domain. These units will be dispersed to Arkadelphia High School and Goza Middle School.

District Internet Services were interrupted on April 25, 2023. This was due to the provider (Ritter Communications) having problems with their equipment. No reason was given.

The District experienced a fiber cut on April 26, 2023, between Peake Rosenwald and the safe room. This event was unrelated to the problems on April 25. Nabholz installed a sewer line through the parking lot between Peake Rosenwald and the safe room. The purpose was to provide city services to our new building at the Old Peake site. I contacted GWHSI to perform the repairs on that fiber line. At this time, the repairs are completed.

Sincerely

Joey Andrews – Technology Coordinator.
