

WIFI SSID vut.cz

Radius authentication for ssid **vut.cz**. This ssid is intended only for guest accounts. Regular accounts will not work (use eduroam for regular accounts).

1. Radius authentication servers:
 - a. radius1.cis.vutbr.cz
 - b. radius2.cis.vutbr.cz
2. Radius authentication secret - on request
3. ssid "vut.cz" string must be transmitted by the access point in the Called-Station-ID radius attribute as specified in RFC 3580. The format can be e.g.: macaddress:ssid
4. Create/enable guest account in [netis](#).
