Example Funnel - Search

I searched for 5-star hotels on Google and selected the one with the most reviews.

Having a significant number of reviews from previous customers helps build trust and provides valuable social proof, reinforcing belief in the quality and reliability of the hotel's services.

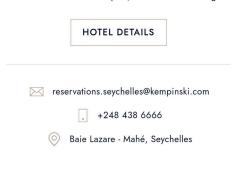

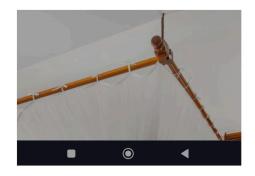

Providing detailed information about the hotel's location and health and safety measures enhances trust in the company, reassuring guests about their safety and the quality of their stay.

Kempinski Seychelles Resort

In historical Baie Lazare, nestled between the dramatic Mount Kempinski and the azure Indian Ocean, our 5-star esort in southwest Mahé is a spectacular retreat offering syriad of facilities and activities. The tropical charm of the resort is a haven for couples, families and meetings.

Our Hotel

Experience an island paradise with tropically elegant rooms and suites, a spa sanctuary with land and sea activities, fine dining, and more.

MORE DETAILS

Location

They highlight amenities like the spa, restaurant, and bars included with the room rates, which increases customer desire by showcasing the added value of their stay.
