Cloudflare 101: <https://warriorplus.com/as/o/fytswc>

Cloudflare 201: <https://warriorplus.com/as/o/zpxfyl>

Attention JV Partners and Product Creators!

A full funnel of Cloudflare security and optimization goodness. The main product is **17 white-label training videos** in my signature no-geek-speak over-the-shoulder style videos. On the checkout page is a convenient **report called Cloudflare Secret Sauce** that contains tips, FAQs, a terms sheet, and more to help demystify Cloudflare's workings.

Also included is a Cloudflare Article 5-Pack and an **extra 21 videos that cover WAF Custom Rules** that users can apply when or if they are needed. These also come with disclaimers and detailed instructions on what the Custom Rule protects against, how to configure the Rule and what to do if it does weird things after you deploy it.

Oh and the **Reseller PLR** is always a Fan-Favorite.

Ready to tap into an underserved market with massive demand? I'm excited to invite you to join the launch of "Cloudflare 301" - a comprehensive video training package that transforms complex website security and optimization into easy-to-follow, actionable steps.

=====

Pre Launch Email Number One:

Subject Lines:

 Heads up: Your website security game changes tomorrow

 Tomorrow: Finally, Cloudflare made simple (no geek-speak!)

 Quick alert: Free website optimization training drops tomorrow

Hey there,

Just wanted to give you a quick heads up about something valuable landing in your inbox tomorrow.

You know that nagging feeling that your website might not be as secure or fast as it should be? Tomorrow, I'm sharing a solution that makes Cloudflare's powerful (and free) security features actually usable for regular business owners.

No complex technical jargon, no overwhelming settings - just clear, step-by-step guidance from someone who's been creating these types of training videos since 2008.

What to expect tomorrow:

A straightforward approach to website security and optimization

Over-the-shoulder style training that shows you exactly what to click

Zero fluff, just practical steps you can follow

Keep an eye on your inbox - this is especially relevant if you've been putting off dealing with your website's security because it seemed too complicated.

Talk to you tomorrow,
[Your Name]

P.S. This is perfect timing if you've been meaning to boost your website's performance but haven't had the time to figure out Cloudflare's dashboard.

Pre Launch Email Number Two:

Subject Lines:

 Tomorrow: Finally master Cloudflare (without the tech headaches)

 Heads up: Your website's about to get a major upgrade

 Quick alert: Game-changing security training drops tomorrow

Hey there,

Just wanted to give you a quick heads up about something valuable coming your way tomorrow.

You know how Cloudflare has all those powerful free features that could make your website faster and more secure? The ones that seem a bit intimidating to set up? Well, tomorrow I'm sharing something that's going to change that completely.

From someone that has been creating no-geek-speak training videos since 2008, and this might be one of the most important ones yet - especially if you've been putting off dealing with your website's security because it seemed too technical.

What to expect tomorrow:

Simple, step-by-step guidance through Cloudflare's most powerful features

Clear explanations without the technical jargon

Practical tips you can implement right away

Keep an eye on your inbox - this is especially relevant if you want to take advantage of Cloudflare's free security tools but haven't known where to start.

Talk to you tomorrow,
[Your Name]

P.S. If you've ever felt overwhelmed looking at Cloudflare's dashboard, tomorrow's email is going to be a game-changer for you.

Email 1 - Launch Day (Feb21, 8AM CST)

Subject Lines:

1.  LIVE NOW: Secure your website with Cloudflare (the easy way)
2.  Just launched: Master Cloudflare without the tech headaches
3.  Your website security solution is here (and it's free!)

Hey there,

The wait is over - the brand new Cloudflare 301 training is now live!

If you've been putting off setting up Cloudflare because it seemed too complicated, this is exactly what you need. It's broken down every essential security and optimization feature into easy-to-follow, over-the-shoulder video tutorials.

Here's what makes this training different:

- 17 step-by-step HD videos showing you exactly what to click
- No technical jargon - just clear, practical guidance
- Focused on the free Cloudflare features you actually need

The best part? You'll learn how to harness Cloudflare's powerful security features without spending a dime on premium plans.

Click here to get instant access while the launch price of \$17 is still available.

Best,
[Your Name]

P.S. This special pricing ends February 28th at midnight CST.

Email 2 - Day 2 (Feb 22)

Subject Lines:

1.  Stop hackers without breaking your website
2.  The “no-geek-speak” guide to Cloudflare security
3.  Why your website needs this protection

Hey,

Quick question: Do you know if your website is properly protected against hackers and malicious bots?

If you're not sure (or you know it isn't), here's why that matters:

- Your site could be vulnerable to brute-force attacks
- Malicious bots might be eating up your bandwidth
- Security breaches could harm your reputation

The good news? Cloudflare offers powerful protection for free. The challenge? Setting it up correctly.

That's exactly why these Cloudflare 301 videos were created. It shows you how to:

- Block suspicious IP addresses automatically
- Protect your login pages from attacks
- Speed up your website while keeping it secure

Click here to get protected while the launch price is still available.

Best,
[Your Name]

Email 3 - Day 3 (Feb 23)

Subject Lines:

1.  Your website's security shouldn't be this hard
2.  Stop hackers without being a tech genius
3.  Make Cloudflare work for you (finally!)

Hey,

Ever looked at Cloudflare's dashboard and felt overwhelmed? You're not alone.

The truth is, Cloudflare offers amazing free security features that every website needs. But figuring out which buttons to click? That's where most people get stuck.

This new training breaks down Cloudflare's most powerful features into bite-sized, over-the-shoulder videos showing you exactly:

- How to block suspicious IP addresses automatically
- Where to click to speed up your website instantly
- Which security settings actually matter for your site

Click here to get instant access while the launch price is still available.

Best,
[Your Name]

Email 4 - Day 4 (Feb 24)

Subject Lines:

1.  "I wish someone had shown me this sooner"
2.  The easy way to secure your website
3.  Stop putting off your website security

Hey,

Quick question: What would happen if your website got hacked tomorrow?

It's not a fun thought, but here's the good news - you can prevent it with Cloudflare's free security features. The only catch? You need to know how to set them up correctly.

That's exactly what this new training shows you:

- Step-by-step setup of essential security features
- Clear explanations without the technical jargon
- Proven settings that work for any website

Click here to secure your copy at the special launch price.

Best,
[Your Name]

Email 5 - Day 5 (Feb 25)

Subject Lines:

1. ⚡ Your website could be faster (here's how)
2. 🚀 Speed up your website without coding
3. 🧠 The secret to a faster website

Hey,

Did you know your website could be running significantly faster without spending a dime?

Cloudflare's free optimization features can dramatically improve your site's speed. But most people never activate them because the settings seem too complicated.

This new training shows you exactly how to:

- Configure caching for maximum speed

- Optimize images automatically
- Reduce server load instantly

Click here to get access while the launch price is still available.

Best,
[Your Name]

Email 6 - Day 6 (Feb 26)

Subject Lines:

1.  Last chance: Secure your website the easy way
2.  Final days: Cloudflare training at special price
3.  Don't miss this website security breakthrough

Hey,

Just a heads up - the special launch pricing for the Cloudflare 301 training ends soon.

If you've been putting off dealing with your website's security because it seemed too technical, this is your chance to finally get it done right.

Remember, you'll learn how to:

- Block malicious traffic automatically
- Speed up your website instantly
- Protect against common attacks

Click here to secure your copy before the price increases.

Best,
[Your Name]

Email 7 - Day 7 (Feb 27)

Subject Lines:

1. ⚠️ Not Many Hours Left: Cloudflare training special ending
2. 🕒 Time's running out on this security solution
3. 🏃 Last chance: Website security made simple

Hey,

The clock is ticking - there are only 24 or so hours left to get the Cloudflare 301 training at the special launch price.

This is your last chance to get step-by-step guidance on securing and optimizing your website with Cloudflare's powerful free features.

Don't wait until it's too late. Click here to get instant access before the price increases.

Best,
[Your Name]

Email 8 - Final Day (Feb 28)

Subject Lines:

1. 🕒 FINAL HOURS: Cloudflare training special ends tonight
2. 📢 Last call: Website security solution closing
3. 🔒 Tonight only: Get Cloudflare training before price doubles

Hey,

This is it - final notice! The Cloudflare 301 training special ends tonight at midnight CST.

If you've been wanting to properly secure and optimize your website but felt overwhelmed by Cloudflare's dashboard, this is your last chance to get step-by-step guidance at the special launch price.

Click here to get instant access before the price increases at midnight.

Best,
[Your Name]

P.S. Remember, the price goes up at midnight CST - don't miss out!
