

ENGLISH TEST – Unit: Big Wide World

6º Educación Primaria – Nivel B1

Time: 45 minutes

Name: _____

Date: _____

1. READING & USE OF ENGLISH (3 points)

Our Big Wide World

The world we live in is full of amazing places. There are six continents: Africa, America, Asia, Europe, Oceania and Antarctica. They are surrounded by oceans such as the Pacific Ocean and the Atlantic Ocean.

Today, scientists are worried about what is happening in our oceans. There is more than 8 million tons of plastic in the sea, and there are fewer coral reefs than in the past. Coral reefs, which are very important for sea animals, are disappearing quickly.

Around the world, people celebrate interesting festivals. In London, people enjoy the Holi Festival, where colours are thrown into the air. In Thailand, there is a Monkey Buffet Festival, where monkeys eat lots of fruit. Another famous celebration is the Chinese New Year, which is celebrated in many countries.

Travelling helps people learn about other cultures and understand how to protect the Earth.

A. Answer the questions.

1. How many continents are there?

2. Why are coral reefs important?

3. Name one festival from the text.

B. Choose the correct option.

4. There is _____ plastic in the sea.

less than more than the least

5. There are _____ coral reefs today than before.

more fewer the most
