# Задание

1) Клонировать лендинг

https://travel-insurer.com/en

2) Убрать зависимостей от всех стилей сайта, т.е что бы если на основном сайте что-то поломалось - или поменяли стиль, у нас ломаться не должно. Т.е по сути не должно быть ссылок на css/html на ресурс

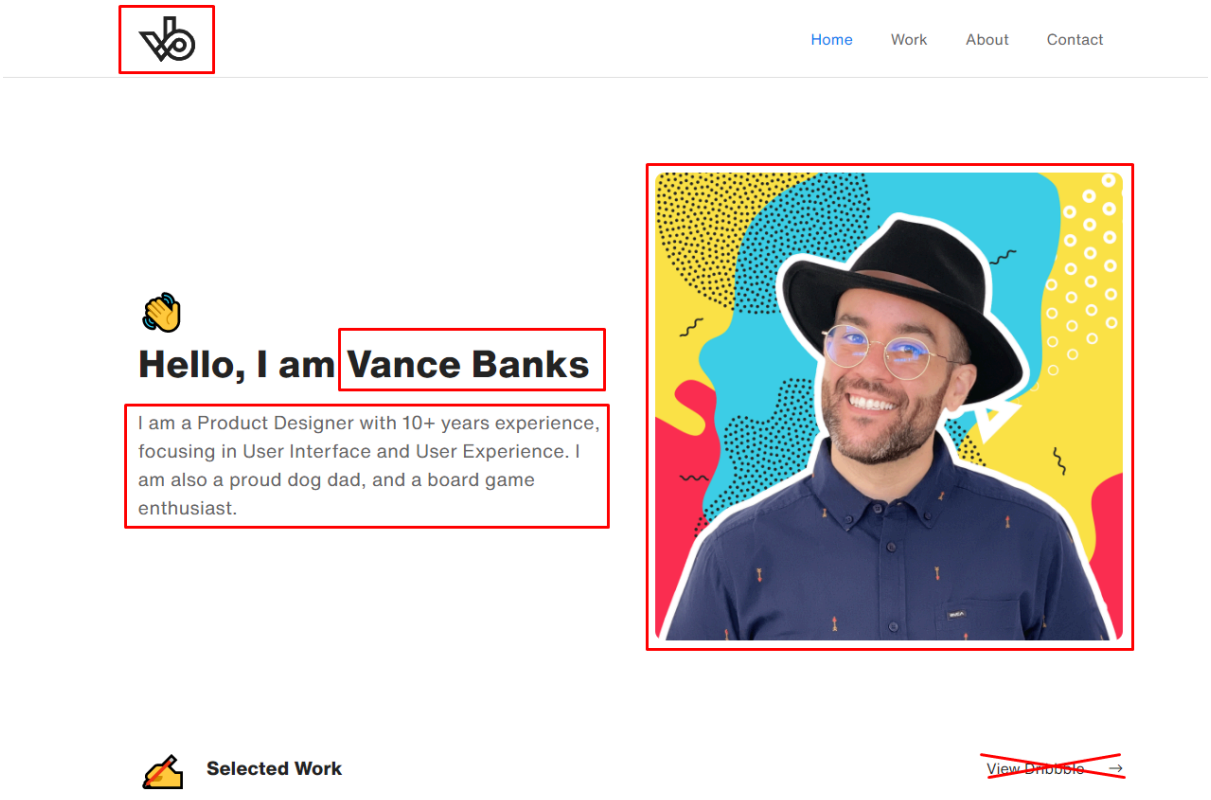
https://travel-insurer.com/en

3) Удалить счетчики аналитики и т.д

За основу берем лендинг

https://www.vancedesignsproducts.com/

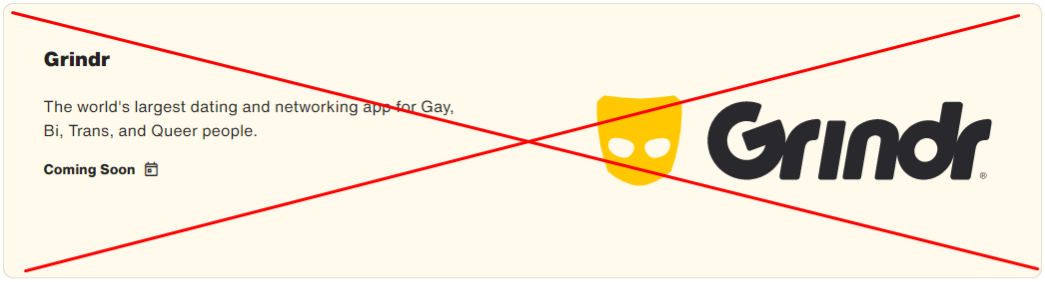
Нужно изменить:

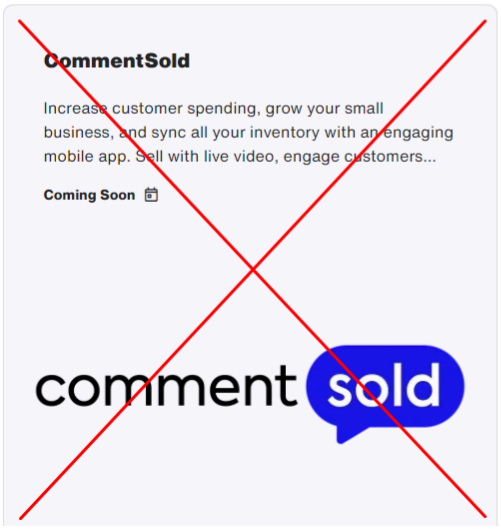


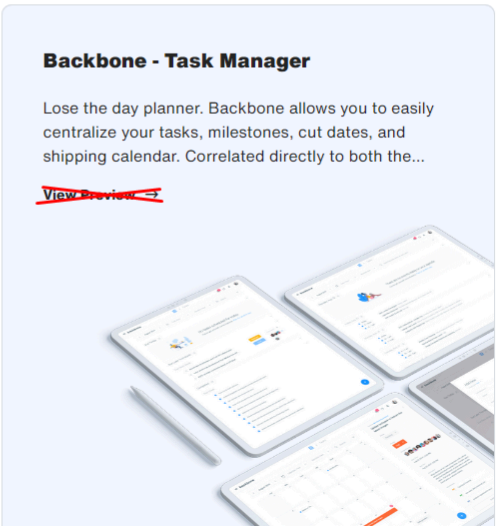
1. Логотип. (папка с лого )
2. Имя. Fabio Goldman
3. Фото.
4. Текст.

I am a designer-developer specializing in creating exceptional digital experiences. With over 10 years of industry experience, I bring a wealth of knowledge in both user interface design and user experience optimization.б no

5. Удалить кнопку и ссылку “View Dribbble”







6. Блоки “Grindr” и “CommentSold” удаляем, на остальных удаляем кнопку “View Preview” и меняем название и описание работы на: (останется 5 блоков работ)

**CafeBrew Website Redesign**

Description: Redesigned the website for CafeBrew, a trendy coffee shop, to enhance its online presence and improve user experience. Created a visually captivating design with a clean and modern interface, featuring an intuitive menu, online reservation system, and integration with social media platforms.

**FitnessTrack App Interface**

Developed the user interface for FitnessTrack, a fitness tracking mobile application. Designed a sleek and intuitive interface that allows users to easily track their workouts, set goals, and monitor progress. Implemented a visually appealing color scheme and interactive elements to enhance user engagement.

**FashionLook E-commerce Platform**

Built an e-commerce platform for FashionLook, a fashion brand, enabling seamless online shopping experiences. Developed a user-friendly interface with advanced search and filtering options, secure payment gateways, and a personalized account dashboard. The design emphasizes the brand's aesthetic and showcases its product line effectively.

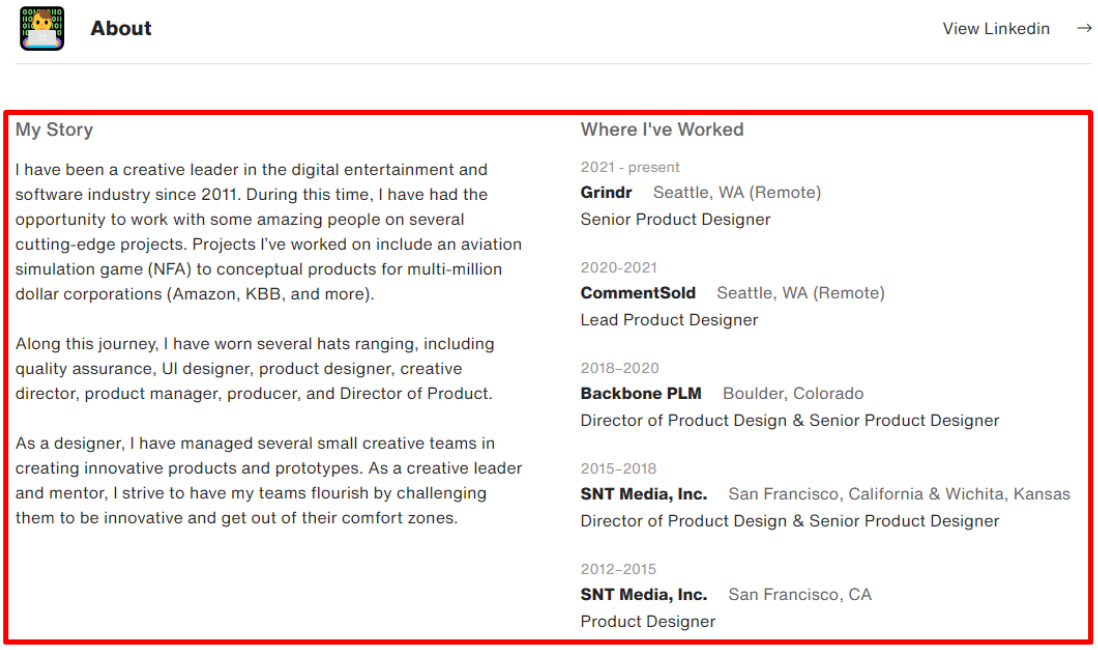
**TravelExplorer Destination App**

Created the user interface for TravelExplorer, a travel app that provides destination recommendations and trip planning tools. Designed an engaging interface with stunning visuals, interactive maps, and user-friendly navigation. Implemented features such as itinerary customization, reviews, and real-time weather updates.

**TechForum Community Website**

Designed and developed a community website for TechForum, a platform for tech enthusiasts to connect and share knowledge. Created a dynamic and interactive interface with discussion forums, user profiles, and event listings. The design promotes user engagement and fosters a sense of community among members.

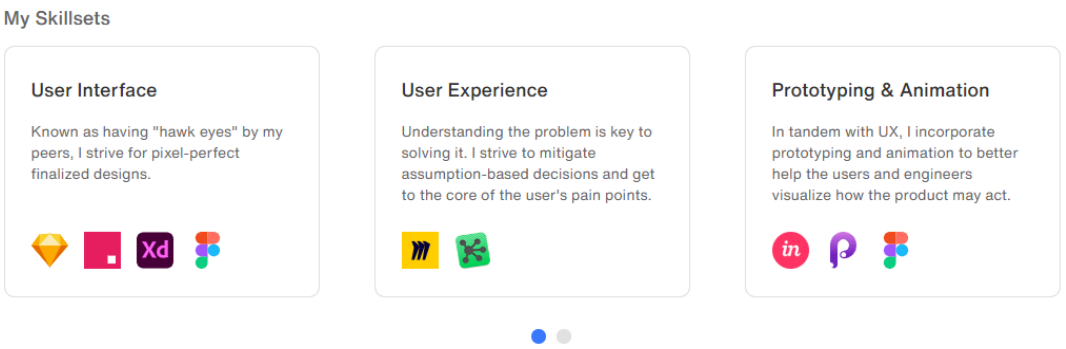
7. Эту часть меняем только на описание ( блок “Where I've Worked” удаляем, оставить только “My Story”)



Описание меняем на:
I am a passionate designer-developer with a strong background in crafting captivating digital experiences. With over 10 years of industry experience, I have had the privilege of working on a wide range of projects, from e-commerce platforms to mobile applications.
My journey in the design and development field has been driven by a deep curiosity and love for creating meaningful connections between users and technology. I thrive on the challenges presented by each project, constantly pushing the boundaries of creativity and functionality.
Throughout my career, I have honed my skills in user interface design, user experience optimization, and front-end development. I am well-versed in utilizing the latest design tools and technologies to bring ideas to life, always staying up to date with industry trends and best practices.
Collaboration is at the heart of my approach. I believe in the power of effective communication and understanding clients' goals to deliver exceptional results. I enjoy working closely with clients, involving them in the design process to ensure that the final product aligns with their vision and exceeds their expectations.
My portfolio encompasses a diverse range of projects, each with its unique set of challenges and requirements. From creating visually stunning interfaces to implementing seamless interactions, I strive to deliver designs that not only captivate users but also provide intuitive and delightful experiences.

When I'm not immersed in design and development, you can find me exploring new creative inspirations, attending design conferences, and staying active in the design community. I am always seeking opportunities to learn and grow, continuously refining my skills to stay at the forefront of the ever-evolving digital landscape.
I am excited to embark on new projects and collaborate with forward-thinking individuals and businesses. If you are looking for a designer-developer who is passionate, detail-oriented, and dedicated to creating exceptional digital experiences, I would love to connect and discuss how we can bring your ideas to life.

8. “My Skillsets” заменить название и описание:



- **User Interface Design**
  I possess expertise in crafting visually captivating and user-friendly interfaces. By leveraging my knowledge of design principles and user-centered approaches, I create intuitive layouts, engaging interactions, and seamless navigation that enhance the overall user experience
- **UX/UI Prototyping**
  I specialize in rapid prototyping, utilizing tools like Sketch, Figma, or Adobe XD to bring ideas to life. By creating interactive prototypes, I validate design concepts, gather user feedback, and refine interfaces to ensure optimal usability and user satisfaction
- **Design Systems**
  I am skilled in developing design systems and style guides that promote consistency and efficiency. By establishing a unified visual language, reusable components, and clear guidelines, I enable teams to collaborate effectively, maintain brand coherence, and expedite the design and development process
- **Collaboration and Communication**
  I thrive in collaborative environments, actively engaging with stakeholders, developers, and fellow designers to ensure a shared vision and successful project outcomes. I possess excellent communication skills, enabling me to articulate design decisions, receive feedback, and iterate effectively throughout the design process
- **Front-end Development**
  With a solid foundation in front-end development, I am proficient in HTML, CSS, and

JavaScript. I have experience in building responsive and accessible websites, ensuring a consistent experience across different devices and optimizing performance for an optimal user journey

- **Mobile App Design**
  I have a strong background in designing mobile applications that provide seamless experiences on iOS and Android platforms. I understand the unique challenges of mobile design, including touch interactions, screen real estate, and platform-specific guidelines, ensuring the apps I create are visually appealing and easy to use
