

# Week 6: Overview

Welcome to Week 6 of the course! This week we'll be looking deeper into Mental Health. We'll also go into our second section of 'voices in the workplace'. In this section, you'll learn more about working with people who use substances and working with military members and veterans.

## Outcomes

This week's learning outcomes are as follows:

- Explain in brief the history of mental health treatment in the United States. (CLO 2)
- Discuss some of the potential causes of mental illness (CLO 2)
- List several modalities of mental health treatment, including the special needs of particular populations in mental health treatment (CLO 2, 3, 4)
- Describe the settings and roles associated with working with mental illness, military service members and veterans, and people with substance use disorders (CLOs 2, 3, 4)
- Analyze the characteristics, skills, and knowledge needed to work with military service members and veterans, and people with substance use disorders. (CLOs 2, 3, 4)

The learning materials, activities, and assignments in this module will contribute to meeting the following course learning outcomes (CLO) as stated in the syllabus. Please refer to the Course Learning Outcomes and Alignment page for more details.

- CLO 1 - Analyze strategies that support client change.
- CLO 2 - Evaluate various Human Services (HS) careers and requirements for successful HS professionals.
- CLO 3 - Apply procedures for assessing needs of individuals, families and special populations seeking HS services.
- CLO 4 - Evaluate intrapersonal and systemic barriers that may inhibit optimal functioning for people receiving HS organization services.
