

ELIXIR Galaxy workshop at ECCB 2018

This workshop will focus on introducing the [Galaxy](#) user interface and how it can be used to analyze large datasets. We will cover the basic features of Galaxy, including where to find tools, how to import and use your data, and an introduction to workflows. This session is recommended for anyone who has not used, or only rarely uses Galaxy.

We will introduce the Galaxy Training Network with its >50 training sessions and will explain how this can be used for self-training or hands-on training on the new <https://usegalaxy.eu> web-server.

Prerequisites:

- Little or no experience using Galaxy.
- A wi-fi enabled laptop with a modern web browser. Google Chrome, Firefox and Safari will work best.

Trainers:

- Krzysztof Poterlowicz (K.Poterlowicz1@bradford.ac.uk)
- Saskia Hiltemann (zazkia@gmail.com)
- Björn Grüning (bjoern.gruening@gmail.com)
