

## SOUNDTRACK OF MY LIFE

You will choose 8 life events that are important to you and have impacted who you are as a person. Some ideas might be a birthday, first day of school, winning a big game, a family celebration, your first solo in a recital, the passing of a loved one, a move to a new school or town or other events that you think are special or were impactful on your life. Pick a song that matches each of these moments in your life - whether it be the lyrics that match the event, a song played at this event, etc.

Once you have chosen all 8 of your songs, complete the reflection pages on each song and event. **Write a 4-6 sentence paragraph**, reflecting on why and how each song represents the specific event.

Lastly, you will be given a square piece of cardstock. On one side, you will write the playlist in order, Song Title - Artist. On the other side you will draw your album cover. The album cover should be representative of you. Please think intentionally and reflectively on each event and song you choose. Please put effort into your album cover as they will be displayed in the hall.

### **When choosing songs:**

- No more than one song by an artist
- Song titles and artist names should be school appropriate
- Remember when writing the name of the song you enclose it in quotation marks

"Song Title" - Artist Event / Memory
