

During the 2023-2024 school year, The Winnetka Public Schools will share a snapshot of student learning via six different mailings. The first mailing, in September, included results from fall universal benchmark assessments.

This second mailing includes the Trimester 1 report of progress. Updates about your child's progress up to this point in the school year will be enclosed in the mailing. Reports will be mailed on Wednesday, December 20th. **In addition, parents with students in grades 1-8 will be able to access their child's Progress Report on Wednesday, December 13 through PowerSchool SIS. Please click this [LINK](#) for specific information on accessing your child's progress report in PowerSchool.** Kindergarten parents will receive the mailing only.

Communication between parents and teachers, and between home and school, is critical to student success. Parents are essential partners in their child's learning journey, and regular communication between home and school helps to foster a strong sense of community and collaboration. This communication can take many forms, including parent-teacher conferences, the enclosed progress reports, and regular updates on student progress. By involving parents in the educational process and keeping them informed about their child's progress, teachers can help to create a supportive learning environment that meets the unique needs and

strengths of each student. This collaborative approach is at the heart of progressive education, which recognizes that students thrive when there is a strong partnership between students, teachers, and parents.
