

Problem: How to juggle 3 different niches.

(Client's niche: custom gifts| Hot lead's niche: reality|
My target niche: |Masculine skincare products.)

Method # 1 (Role Playing)

I am my ideal self, who is able to take on multiple clients at once.

First I will lay out times during the day for each target niche. Times between 4:00 AM - 10PM

It is my niche. 11:00-4:00 are dedicated to the reality niche, 4:00-9:00 are dedicated to my clients niche.

Once I wake up at 4 I will complete any task I need to before starting the G

Prospecting/outreaching session. For the next 1-2 hours he will prospect -> create free value -> outreach. He will eat a G breakfast for maximum energy, then resume another G prospect/outreach session until it's time to move on to the next category..

(Lead) Reality niche| After I am finished doing non negotiable tasks I will deep dive into the leads niche, analyzing 3-4 top players, comparing and contrasting between them and the lead. -> Fully analyze the lead company (SWOT) -> Come up with a detailed strategic plan before entering the sales call. -> Review sales call notes/questions -> Conquer sales call -> Booked.

My current clients niche: (I have already finished web-design waiting to get back from her for updates/changes.) I will go back to my work fully analyzing from an outside perspective. (Walk the factory line) Once I have found any issues I will OODA loop the best possible course of action 3 times. -> Begin G work session fixing any issues I may find + PLUS over delivering to make the client much more satisfied.

Method #2 (Mapping it out)

- 4:00 - 4:30 AM (Shower+getting awake)
- 4:30-6:00 (Rewatching outreach lessons/take notes/praying)
- 6:00-6:30 (200 burpees)
- 6:40 (Breakfast)
- 7:10-9:10 (Prospecting/creating free value)
- 9:10-11:00 (Creating free value+Outreaching)
- 11:00 MPUC
- 11:30 est (Continue outreaching/OR use this time to study the reality niche)
- 12:30 (Quick workout)
- 1:00 (Agoge call)
- 2:00 (Take action on New agoge challenges)
- 3:00-3:20 (OODA Loop what I've done, Adapt, Take action)
- 3:25-5:25 (Completing rest of daily checklist)
- 5:25-6:30 (G work session on client)
- 6:30-7:30 (making dinner/eating)
- 7:30-8:30 (make plans for tomorrow/OR client work.)

- 8:30 (get ready for sleep/pray)
 - 9:00 Get some sleep.
-

Dreamers:

- Just schedule out everything perfectly and get the work done without issue
 - Don't get distracted at all
 - Be able to create free value+Send outreaches in the short period of time
 - Be able to remember/keep notes separated for each individual niche.
 - Be able to fully analyze the work i've done for my clients, find issues, fix+overdeliver
 - Be able to (Shower+Get dressed+Burpees+Breakfast+Prospect+create free value+Outreach in a span of 5 hours
-

Realist:

You won't be able to schedule EVERYTHING accordingly, so check your existing schedule, make changes, and adapt if necessary. You will not be able to perfectly:

Rewatch some outreach lessons -> take notes -> prospect->Create free value->outreach|

All in the span of 4 hours based on your current skill level, so you will need to plan more time throughout the day to finish that.

It will be hard juggling three niches, but it's possible, for the time being you can make time throughout the day to research the reality niche, so you're not fully diving in bed just yet.

You won't be able to perfectly analyze your own work, so after analyzing it make the changes you find appropriate, then send it off to be reviewed.

Critic:

- Schedule your day out the best of your abilities and leave gaps in your schedule (dedicated to a specific goal, BUT adaptable)
- Then on the other hand schedule points of your day which are non negotiables. (Points of completing daily checklist, burpees, agoge challenges, workout,praying, food)
- You will have to reabsorb some of the outreach strategies so carefully schedule a time throughout your day to do so.
- Best plan of action would be to finish your work ASAP, then whatever free time you have USE IT on researching the reality niche. (Since you have time before you need to fully get talking) (Long story)
- Use the strategies taught in the agoge program/bootcamp to work your way around your problems, and come up with an action plan to solve them -> then take action immediately until you are satisfied with your work. -> from there you will need to send it in to be reviewed.

- When you're waiting for it to be reviewed, dedicate this time into over delivering for your client.
 - OVERALL (This is lots of work to complete all in one day alongside the agoge program and the daily checklist YOU CAN GET IT DONE. BUT make TWO plans in case the one fails.
-
