

Abolishing the Abortion Act Executive Order

The Abortion Act and its issues

The Abortion Act was a law passed by my predecessor. The law while it seems moral for some individuals, there are some issues with the law. These are:

1. Banning abortion after 10 weeks
2. Charging individuals for manslaughter for seeking an abortion after the 10 week limit
3. Defunding institutions such as Planned Parenthood
4. A wealthfare check of \$1 500 which may not be enough to fulfil their needs
5. No exceptions for incest and rape

This act can be an issue for many women in Alabama and therefore it would make sense for this act to be abolished.

Abolition of the Abortion Act

This executive order effective immediately abolishes "The Abortion Act" and allows abortions after three (3) weeks of pregnancy.

Signed

Governor Mabuya634
