

EGO 56V Select Cut XP (LM2150SP)

The EGO self-propelled Select Cut XP mower delivers a torque of about 8.3 ft-lb. The Select Cut technology comes with three interchangeable blades: the extended runtime blade, the high lifting bagging blade, and the mulching blade. All the blades are interchangeable depending on your choice. With the intuitive Touch Drive technology, you can control the system entirely in your hands.

Features –

- Takes 60 minutes to charge, which is the industry's fastest
- Weather-resistant construction
- Easy access grass collecting bag
- Cutting height adjustments from 1.5" to 4"
- High-efficiency motor

EGO 56V Select Cut Self-Propelled Lawn Mower (LM2130SP)

Another great EGO self-propelled land mower is capable of delivering performance compared to other gas-driven machines. The EGO LM2130SP comes equipped with two different interchangeable blades: the premium bagging blade and the premium mulching bag. The former one is a heavy-duty blade capable of turning grass into fragments. Whereas, the latter one is perfect for mowing weekly giving you a good quality cut.

Features –

- Quick push-button start
- Side discharge, bagging, and mulching
- 21 inches deck
- High-quality brushless motor
- Premium trimming performance
- Charge time of about 60 minutes when you connect it with the right battery and charger

EGO 56V Self-Propelled Mower Peak Power (LM2142SP)

With the innovative Peak Power technology in the EGO LM2142SP self-propelled mower, you can fulfill the need to trim your lawn with ease. If you have bigger land to mow, the EGO LM2142SP is a perfect choice. The machines combine the power of two EGO batteries to deliver uninterrupted performance for a longer time. The speed control in the mower allows you to control the machine through rough terrain.

Features –

- The runtime of up to 80 minutes on a single charge
- Easy push start button for convenience
- Takes little space for storage
- Easy to access grass collecting bag

EGO 56V Self-Propelled Steel Deck Lawn Mower (LM2020SP)

The EGO LM2020SP delivers sheer power similar to that you can find on mowers running on gas. With a 20 inches steel deck and a brushless motor with variable speed, the EGO LM2020SP is a mower that you can't miss. Another good feature about the equipment is that it has a 60-minute runtime for your work to finish. The rugged construction keeps the machines safe from rough weather conditions.

Features –

- Variable speed propulsion
- Simple push start button
- Easily foldable
- Efficient brushless motor

EGO 56V Self-Propelled Lawn Mower (LM2102SP)

The EGO self-propelled LM2102SP mower has a short recharge time along with a 5-year warranty. The cordless mower comes with a lithium-ion battery of 56 volts and provides around 60 minutes of power to the machine. Also, it depends on the thickness of the grass and height. The display on the machine shows you the remaining power.

Features –

- Bright LED lights
- Six different height settings
- Weather-resistant construction
- Easy fold for storage
- Adjustable propel speed

EGO 56V Lawn Mower (LM2101)

The EGO LM2101 lithium-ion self-propelled mower is all about power. Now, you can feel the power of gas-enabled mowers in the EGO LM2101 without fumes and noise. The self-propelled mower delivers amazing and long-lasting power so that you can work with pleasure. With a single charge, the mower works for about 45 minutes straight.

Features –

- Powerful brushless motor
- Improved speed control
- Needs a 50-minute charging time
- Easy functioning
- 21 inches deck
