

Musky Melon OG

Musk Melon OG Gin by Scentelligence Spirits is a unique and flavorful gin that has been expertly infused with the terpenes found in the SFV OG strain of cannabis. This gin has a distinctive aroma that is both fresh and fruity, with notes of juicy cantaloupe melon and the earthy, musky scent of the SFV OG strain. The gin is smooth and well-balanced, with a hint of tartness that complements the dank, gassy undertones of the SFV OG terpenes. The result is a one-of-a-kind gin that is perfect for sipping on its own or as the base of a flavorful cocktail. So if you're looking for a delicious gin packed with cannabis flavor, look no further than Musk Melon OG Gin by Scentelligence Spirits.

Another flavourful terpene concoction brought to you by [Scentelligence](#)

Secret Recipe:

Prepare the Gin base by [quickly infusing](#)
325ml neutral spirit (such as Vodka) with
2 Tbsp juniper dried juniper berries and
2 tsp coriander seeds

Place ingredients in ISI whipper and charge with one nitrous charger. Shake for 1 minute and then carefully release pressure with a towel over the spout. If your liquid ingredients don't completely fit in your charger, fully infuse one portion of the spirits and combine with the remainder.

Alternatively, let the flavoring agents sit in the spirits for up to 2 weeks until the flavor develops to your liking.

Terpene Flavoring Base-
0.25 ml SFV OG WS (approx 5 drops)
0.10 ml Cantaloupe Crush Cloudburst (approx 2 drops)

For this application, we've sourced our flavoring agents from Abstrax Tech.

[SFV OG](#)

[Cantaloupe Crush](#)

Strain the Gin Base and add the Terpene Flavoring Base to your liking.

The result should have a noticeable melon top note with a dank middle of freshly turned earth and musky garden scents. Use as you would any other botanically balanced Gin (such as Hendricks). Great in a bubbly highball, mule, or stirred into a dry martini.

Garnish with melon, cucumber, cannabis leaf, or any combo of the three.
