

An Ingenious Idea- Research Assignment

Step One: Reflection

Reflect on our discussion. Search the web for an ingenious invention. .

Step Two: Make a Choice

Choose a product that you think is amazing and truly ingenious. Try to choose a product that both solves a problem and is not reliant on advanced technology to work.

The problem I chose is _____ because _____

Step Three: Gather Data

Research the product. Answer the following questions (min).

1. Who created it?
2. How does it work?
3. How much does it cost to make the product?
4. What do consumers pay for the product?
5. What materials is the product made of?
6. What impact will the product have/has the product had?
7. Where did you get your information (Copy and Paste links)

Step Four: Prepare to Share

Take what you have learned and create a presentation to share with the class. You MAY NOT use PowerPoint. Options include:

- a. An advertisement for the product
- b. Journal entries from the creator of the product
- c. A TED talk about the invention
- d. A newspaper article talking about the invention
- e. An instruction manual for the invention
- f. Your Choice (see me first!)

Step Five: Practice Makes Perfect

- a. Refine your presentation
- b. Practice your delivery. Practice with a peer!
