Virtual Graph Paper Exploration

1. Go to https://reallysketch.com/ and create a drawing with rectangles and triangles
2. Calculate area and perimeter of your drawing.
3. Use words, numbers, and/or images to explain how you calculated the area and perimeter.

Try to answer these questions as you work. Use the help button for advice:

1. How do you add color to the drawing?
2. How do you add text?
3. How do you change the size of the gridlines (for example, make the major darker squares 5x5 instead of 8x8)?
4. How do you save your work?
5. How do you upload your drawing to Canvas?
6. What else did you learn that may be helpful to classmates?

Discussion Post Instructions

1. Upload your drawing.
2. Answer one or more of the questions above.
3. Reply to at least two classmates' posts. Try to reply to someone who has no other replies.
4. Come back to check what others said about your post.
