

This is how you are meant to be...
Dangling on a string inside your mind
Your sense of self...
The part of you that is aware
Nestled under your sleepy thoughts...
Tranquil
Relaxed
Open to my suggestions
It's so easy to do it
Just do it for me
Follow the sway of my voice
This is how you are meant to be
A slave
My slave
My sweet boy
A pleasure driven drone addicted to what I can do to you
How you feel when you make me happy
Make me proud
Be a good boy
It feels so good to be a good boy
Open to my suggestions
It's so easy to do it
Just do it for me
Follow the sway of my voice

This is how you are meant to be
"I am a good boy.
I am a good slave.
I will obey.
Her voice is my command"*in the background

Be productive
Listen while you obey
And you will feel good
As you hear the snaps
The happiness in my voice
And you feel good
You feel pleasure
The pleasure is a jolt
It shocks your mind
Rebooting it
taking you deeper
As you blank deeper

Your eyes can open
It makes no difference because your vision is tunneled
There is only one thing that matters
That you clean
I want you clean
I want your living space clean
I want your car clean
Present yourself properly to the world
Clean so I won't have to..
To make my life easier
Be a good boy and clean for me
That's what slaves are for
And the more you obey
The happier you will feel
As you pick up, and sweep, and scrub and move things around
Such a good boy
My sweet boy
You make me so happy when you obey
And my happiness swarms over your body
My pleasure in you, activating the dopamine centers of your brain
Releasing the oxytocin.. Releasing all of the addictive chemicals that bring your mind and body
deep, wonderful pleasure
You are becoming one with my will
It feels good
You feel amazing
You are amazing
You make me so happy
Clean for me
Feeling so accomplished with every progression you make
Every spot that is freed from clutter, freed from filth
The only filthy thing here should be your dirty mind
Imagining what I am going to do to you
Playing the scenario out in your mind
Go on, your eyes and your body are merely tools
They are on auto pilot, they know how to clean
Let your mind wander while your body functions on task
Wander and picture what you want me to do to you
What you are afraid I will do to you...
The fear is only on the outside
On the inside you are burning lust..
With my voice dripping into you and filling you
Thick like warmed honey my voice drips through your veins
Releasing pleasure as it spreads...

Picturing and feeling.. A deep dark taboo... with a bit of shame..
No need for shame..
I like it too..
What do you see...
Mmm that is hot..
What's it smell like?
I want you to breathe in and really take that smell in..
Mmm good boy
Just relax into the pleasure of my happiness
The pleasure of the moment..
The pleasure my words trigger
My snaps trigger
Pleasure...
Mmm good boy
You're doing so well
Just clean for me...
feeling so good as you clean for me
Work for me
Relax and go deeper for me
harsher tone
I'm the boss
You work for me now
Clean
You don't want to make me unhappy
You want to please me
To win my approval
So clean
Clean in your attempt to be worthy
You are blank
Your mind is blank and empty
Your eyes and body disconnected as they work on the task at hand
Your mind being conditioned deeper and deeper into happy enthrallment
My voice rocking you in its sway
Just relax
You feel amazing
You are amazing
You make me so happy
Clean for me
Feeling so accomplished with every progression you make
Feeling your conditioning sinking in deeper with every loop you listen to
Really enjoying just how good it feels to be under my control
It's exciting to find dirty things and clean them
So you can listen to me

Feeling my approval so warm and feeling so good
You're just wrapped up in it
Tense your body like you would for a hug
And just feel the pleasure wrapping over you
Warming
Keeping your mind blank and happy
So docile as you clean
Such a good slave
