# Privacy Policy for Multi Search & Multi AI

Effective Date: 17/02/2024

## 1. Information Collection and Use

Multi Search & Multi AI is a browser extension designed to enhance your search experience by allowing you to search across multiple search engines simultaneously from a new tab. We do not collect, store, or share any personal information, including your search queries. The extension operates locally on your device, and all data processing is done on your machine.

## 2. Host Permissions

The extension requires host permissions to access all the webpages solely for the purpose of fetching and displaying search results from various search engines within the extension's interface. No personal data is collected, stored, or transmitted in this process.

## 3. DeclarativeNetRequest

Multi Search & Multi AI uses the DeclarativeNetRequest API to enhance your browsing experience by efficiently fetching search results without compromising privacy or security. This API is used in compliance with browser extension policies, ensuring a secure and reliable service.

## 4. WebNavigation

The WebNavigation permission is used to detect when a new tab is opened, allowing the extension to display its custom search interface. This permission does not involve tracking your navigation habits or collecting personal data.

## 5. Data Sharing

We do not share any personal data with third parties. As Multi Search & Multi AI does not collect personal data, there is no data to share.

## 6. Data Security

Protecting your data is of utmost importance. Multi Search & Multi AI is designed to ensure that your information is secure. The extension does not store any data, ensuring that your browsing and search history remain private.

## 7. Changes to This Privacy Policy

We may update our Privacy Policy from time to time. We will notify you of any changes by posting the new Privacy Policy on this page. You are advised to review this Privacy Policy periodically for any changes.
