

## **How to Move and Use Photos from Your Phone**

**Most apps accessible on our chromebooks will require you to move the images from your phone to your Google Drive.**

**You must have the Google Drive app installed on your phone.**

**To move images from your phone to your Google Drive:**

**Open the photo> Click the share button> Select the Google Drive app> Select Upload**

**If the image is an HEIC, after moving the image to your Google Drive use this HEIC converter: <https://heic.imobie.com/heic-to-jpg/>**

**NOTE: Before taking photos on your phone you can turn off/deselect the High Efficiency option in your camera settings.**
